

Title: *Geography of Utah*

Subj: GEOG

Cat #: 3600

Sec #: 090

Component: Lecture

Units 3.0

This is an On Line Class

Instructor: PETERSEN, K.L.
(ken.petersen@utah.edu)

Fees \$60

Text: Cliff B. Craig and M. Elijah Carr

Description: This class is tailored for individuals who plan to be elementary school teachers in the state of Utah and be qualified to teach Utah Geography to 4th graders. Join on-line students in learning about the geography of Utah. Each student will select a different county and using the chapters of the text book as a guide, produce their own booklet for that county. You will read and comment on chapters by other class members and at the conclusion of the course you will share your county booklet with all the other students in the class. There are lots of small weekly assignments and it is imperative that you keep up to succeed.
