NUTR 3010-002 Nutrition Intervention in the Treatment and Prevention of Chronic Disease

FALL 2020

INSTRUCTOR INFORMATION

Jean Zancanella, MS, RD, Assistant Professor (Lecturer), Department of Nutrition and Integrative Physiology

Phone and Email: (801) 581-5280. Email within Canvas system.

Office location: HPR-N #212

Office hours will be posted on the home page every Monday morning.

TEACHING ASSISTANT INFORMATION:

Rachel Palmer, Graduate Student, Class of 2021

Contacting our TA: Email within Canvas system.

Office location: HPR-W #108G

Office hours: 12:30 p.m. - 1:30 p.m. on Wednesdays

Email or call to set up an appointment for an in-person or phone meeting.
CLASS MEETING INFORMATION

This class meets from 10:45 a.m. - 12:05 p.m. on Mondays and Wednesdays in HPR-N #238.

STUDENT LEARNING OUTCOMES

Nutritional biochemistry and cellular homeostasis are integrated with nutrition intervention in the prevention and treatment of chronic disease. This course is designed for students anticipating a career in health care.

Active participation in this course should allow you to:

- Describe the processes of digestion and metabolism, specifically for the macronutrients.
- Identify the structure, function, and dietary requirements of micro- and macronutrients in the prevention of toxicity or deficiency syndromes and chronic disease.
- Specify and interpret the recommendations for a prudent diet as defined by the Dietary Guidelines and apply these recommendations to yourself as well as your future patients/clients.
- Identify and apply various nutrition assessment techniques.
- Demonstrate the relationships between medical nutritional therapy and treatment of chronic disease throughout the life cycle.

PREREQUISITES

- **There are prerequisites.** You should have already taken these courses before taking NURS 3010: BIOL 1210 or CHEM 1120; and BIOL 2325 or BIOL 2420.
- **This is a 4 credit hour class:** Please make sure you have the necessary time to dedicate to this course. Translation: roughly 3-6 hr per credit hr (12-24 hr/week).
- **This is a hybrid online/on-campus class:** This course requires access and use of technology. The class will meet as a group every Tuesday and Thursday from 10:45 a.m. until 12:05 p.m. in HPR-N #236. The calendar below lists the material covered in each class as well as all due dates. Exams, assignments, and quizzes are all administered online via Canvas.

⚡ QUICK CHECK

Have you taken the prerequisites for this course?

- [ ] Yes
- [ ] No
REQUIRED MATERIAL

Get comfortable with Canvas!

- **Teaching and Learning Methods:**
  The course is dependent upon the required textbook with additional resources provided in class and on Canvas such as chapter guides and supplemental material that is relevant to the material presented. It is recommended that you read the assigned readings prior to taking the chapter quiz and coming to class. Doing so will create a foundation for course material and will allow you to follow the class discussions more easily. Exam material will come from class discussions, the online module material, and chapter readings. The [calendar](https://utah-primop.explore/search?query=any,contains,NUTR%203010%20McIntosh&tab=uuu_alma_cr_restricted&search_scope=UUU_ALMA) has suggestions for what chapters we will be covering each week as well as all due dates.

- See the [Course Design page](https://utah.instructure.com/courses/597664/assignments/syllabus) for more information.

**Required Text:** The book is required for the course and older versions are not acceptable as important.

**ISBN:** 978-0-323-37731-7

*The book may be purchased directly from the publisher or at the bookstore. You may purchase a paper to an ebook, or you may rent it. I have also requested a reserve copy of the [book](https://utah-primop.explore/search?query=any,contains,NUTR%203010%20McIntosh&tab=uuu_alma_cr_restricted&search_scope=UUU_ALMA) to be available at the Marriott Library.*

LEARNING ASSESSMENTS

You’ll have multiple opportunities to demonstrate your mastery of the material in this course! There will be 18 quizzes, 4 assignments, and 3 exams.

- **Quizzes: 15% of the total grade** (18 quizzes – one for each module):
  - **What are we doing on the quizzes and why?** Quizzes are an effective tool for assessing your recall and basic understanding of the didactic material that forms the groundwork of nutrition intervention.
  - **What’s the fine print?** The quizzes are taken online. Each quiz is open book/notes and will cover the topics in the relevant chapter. Once you start the quiz, you will have 10 minutes to complete it (unless otherwise noted). You do not need to register for the quiz. You may access it and take it when you feel
you have covered the material efficiently. Quizzes will close at 10:30 a.m. Mountain Time on Tues
Thursday of the week they are due.

- **Assignments: 25% of the total grade** (4 assignments at 30 to 90 points each):

  The assignments (forms and instructions) are available to download from the Assignment page on Canvas.

  **What are we doing on the assignments and why?** The main goal of our assignments is to show you some of the biochemical and anthropometric tools commonly available to assess a patient’s nutritional status. And to help you interpret these results properly for your future patients/clients.

  **Body Composition Project:** (61 points) This project will provide you with anthropometric information from which you can assess your own body composition and nutritional health status as it relates to body composition.

  **Using the Scientific Literature** (30 points): This assignment will help familiarize you with the use of peer-reviewed scientific literature. We will explore a review article and a primary research paper.

  **Iron Status Worksheet:** (76 points) You will evaluate your iron status as well as dietary sources of iron. In addition, you will locate, read, and summarize research articles from peer-reviewed scientific journals.

  **Cholesterol and Blood Pressure Project:** (90 points) This project is designed to familiarize you with measurements performed to assess risk of cardiovascular disease. As with the Iron project, you will be locating 2 research papers, reading the paper, and summarizing your findings for this project.

  **What's the fine print?** In order to complete three of the assignments, you must complete a few biochemical and anthropometric tests at the beginning of the semester. Your course fees cover this testing through the Department of Nutrition and Integrative Physiology. Go to the “lab testing instructions” page for details and to schedule an appointment. The testing will take about 15-20 minutes per person. You will only need to go one time for this testing. This testing is required to complete your assignments. Copies of lab results pertaining to each assignment must be submitted along with the assignment.

  It is required that each assignment be submitted through the Canvas assignment tool. Assignments submitted incorrectly will not be graded. All assignments are to be typed and saved with your name in the file name in Word format (.doc) or a PDF file if using other word processing software.

- **Exams: 60% of the total grade** (3 exams at 50 points each):

  **What do I need to know about exams?** Dates and material covered on each exam are listed below. All exams are administered through U-online. Instructions on how to register for your exams is located on the "Schedule Exams" page (see class menu to the left). You must register for each exam. Please register 2 weeks in advance of each exam as appointments are limited. Exams are administered online in various locations with approved proctors. Exam registration for each site, day, and time is limited.
What's the format of the exam? The exams are a combination of multiple choice, true/false, match fill-in-the-blank, calculation, and short answer questions. They will be timed at 2 hours each. They will look very similar to your graded quizzes online. We will provide you with a study guide in advance of the exam to help you prepare.

FREQUENTLY ASKED QUESTIONS

What's the best way to go about managing my time for this class?

Successful students (those that get A's and B's) use their time wisely. The standard formula for college coursework is that for every 1 hour of class time will result in 3 to 6 hours (and sometimes more) of homework; thus, a 4 credit course will require an average of 12 to 24 hours of homework (reading, research, studying) per week. As a result, successful students plan their time so that they keep up with assignments by maintaining a pace that fits the course schedule. They also communicate with the instructor often so that they can receive feedback on their work. Please note the class is cumulative in nature. A good understanding of the material in the first part of the semester is necessary in order to proceed successfully throughout the remainder of the semester.

How can I find out how I did on exams and assignments?

All assignments will be returned via electronic uploads to Canvas. We encourage you all to review graded assignments and to contact us with any questions. Graded quizzes will be available to review after the due date. To review your exam, please plan to come to the office to meet with your instructor or TA. If you have any questions or concerns about the grading of your assignments or exams we ask that you bring that to our attention within one week of the grade being posted so that we may handle any issues in a timely manner.

I missed an assignment due date, now what?

We will grade late assignments (defined as assignments submitted between 12am MST the day after the due date up until 3 days after the due date) for ½ credit. Please keep in mind that assignments can be submitted as early as you like! They’ll be open from the first day of the semester until the set due date/time. If you experience technical difficulties with submitting these assignments, please contact U-online for technical assistance at (801) 585-5959 or one of your instructors immediately.

What happens if I miss a quiz?

Bummer. You will have from the first day of the semester until the due date to take it. If you snooze, you lose. It will not be reopened. Your lowest quiz score will be dropped from your grade though so you can afford to miss one quiz.

What if I miss an exam?
There will be no make-up exams without prearranged permission from your instructor. If the incident resulting in a missed assignment or exam occurs on the due date - you will have 24 hours to contact your instructor to make the necessary arrangements. Physician's verification is required for illnesses or other documentation (e.g., doctor's note, accident report, death certificate) for medical or emergency circumstances beyond your control. Late exams must be completed within one week of the first date the exam is offered. To contact your instructor, messages can be left on our e-mail or voice mail prior to the scheduled exam time or within 24 hours after the incident. Missed assignments and exams without permission or acceptable medical or emergency excuse will be assigned a grade of zero, per University policy.

If you know in advance that you need to take the exam at a different time than scheduled, we are happy to work with you to make arrangements. These arrangements must be scheduled at least 1 week in advance of the exam for a time before the originally planned test date (i.e., if you are jetting to Cabo during the week of the exam, take the exam before you leave!)

**GRADING SCALE:**

Grading in this course is based upon your display of knowledge on the assignments, quizzes, and exams noted above. Since all assignments are related directly to the course objectives, failure to complete any assignment will result in an unsatisfactory course grade.

**COURSE RESPONSIBILITIES:**

- **Electronic or equipment failure:** It is your responsibility to maintain your computer and related equipment in order to participate in the online portion of this course. Equipment failures (including loss of internet access) will not be an acceptable excuse for late or absent assignments. We will receive notifications from U-online directly in the event that Canvas goes down for any period of time. This rarely ever happens but if it does, we will deal with affected individuals on a case by case basis.

- **Document archiving:** You are responsible for making sure your assignments, including attachments, are received before the deadline. Students are also responsible for ensuring that the documents submitted are the correct document to be graded.

- **Naming conventions and software type:** You are responsible for submitting the assignment with the required naming convention, correct file extension, and using the software type and version required for the assignment. See assignment instructions for acceptable formats.
• **Late assignments**: Canvas uses electronic dating to close (the Assignment Drop Box, Postings, or Assessments/Quizzes), therefore late assignments, postings and quizzes cannot be submitted.

• **Classroom equivalency**: Discussion threads, e-mails, and chat rooms on Canvas are all considered to be equivalent to classrooms, and student behavior within those environments shall conform to the University of Utah Student Code. Specifically:
  - Posting photos or comments that would be off-topic in a classroom are still off-topic in an online posting.
  - Off-color language and photos are never appropriate.
  - Using angry or abusive language is called “flaming”, is not acceptable, and will be dealt with according to the Student Code.
  - Course e-mails, e-journals, and other online course communications are part of the classroom and as such, are University property and subject to GRAMA regulations and the Student Code. Privacy regarding these communications between correspondents must not be assumed and should be mutually agreed upon in advance, in writing.

---

**INSTITUTIONAL POLICIES**

**Drop/Withdrawal Policies**

Students may drop a course within the first two weeks of a given semester without any penalties.

Students may officially withdraw (W) from a class or all classes after the drop deadline through the midpoint of a course. A “W” grade is recorded on the transcript and appropriate tuition/fees are assessed. The grade “W” is not used in calculating the student’s GPA.

For deadlines to withdraw from full-term, first, and second session classes, see the U’s [Academic Calendar](https://registrar.utah.edu/academic-calendars/index.php)

**Plagiarism & Cheating**

It is assumed that all work submitted to your instructor is your own work. When you have used ideas of others, you must properly indicate that you have done so.
Plagiarism and cheating are serious offenses and may be punished by failure on an individual assignment, and/or failure in the course. Academic misconduct, according to the University of Utah Student Code,

“...Includes, but is not limited to, cheating, misrepresenting one's work, inappropriately collaborating, plagiarism, and fabrication or falsification of information...It also includes facilitating academic misconduct by intentionally helping or attempting to help another to commit an act of academic misconduct.”

For details on plagiarism and other important course conduct issues, see the U's Code of Student Rights and Responsibilities. (http://regulations.utah.edu/academics/6-400.php)

Safety at the U

The University of Utah values the safety of all campus community members. You will receive important emergency alerts and safety messages regarding campus safety via text message.

For more information regarding safety and to view available training resources, including helpful videos, visit safeu.utah.edu.

Wellness at the U

Your personal health and wellness are essential to your success as a student. Personal concerns like stress, anxiety, relationship difficulties, depression, or cross-cultural differences can interfere with a student’s ability to succeed and thrive in this course and at the University of Utah.

Please feel welcome to reach out to your instructor or TA's to handle issues regarding your coursework.

Addressing Sexual Misconduct

Title IX makes it clear that violence and harassment based on sex and gender (which includes sexual orientation and gender identity/expression) is a civil rights offense subject to the same kinds of accountability and the same kinds of support applied to offenses against other protected categories such as race, national origin, color, religion, age, status as a person with a disability, veteran’s status, or genetic information.

If you or someone you know has been harassed or assaulted, you are encouraged to report it to university officials:

Diverse Student Support

Student Support Services (TRIO)

TRIO federal programs are targeted to serve and assist low-income individuals, first-generation college students, and individuals with disabilities.

Student Support Services (SSS) is a TRIO program for current or incoming undergraduate university students who are seeking their first bachelor's degree and need academic assistance and other services to be successful at the University of Utah.

For more information about what support they provide, a list of ongoing events, and links to other resources, view their website or contact:

Undocumented Students

Immigration is a complex phenomenon with broad impact—those who are directly affected by it, as well as those who are indirectly affected by their relationships with family members, friends, and loved ones. If your immigration status presents obstacles that prevent you from engaging in specific activities or fulfilling specific course criteria, confidential arrangements may be requested from the Dream Center.

Arrangements with the Dream Center will not jeopardize your student status, your financial aid, or any other part of your residence. The Dream Center offers a wide range of resources to support undocumented students (with and without DACA) as well as students from mixed-status families.

For more information about what support they provide and links to other resources, view their website or contact:
Dream Center

**Inclusivity at the U**

The Office for Inclusive Excellence is here to engage, support, and advance an environment fostering the values of respect, diversity, equity, inclusivity, and academic excellence for students in our increasingly global campus community. They also handle reports of bias in the classroom as outlined below:

_Bias or hate incidents consist of speech, conduct, or some other form of expression or action that is motivated wholly or in part by prejudice or bias whose impact discriminates, demeans, embarrasses, assigns stereotypes, harasses, or excludes individuals because of their race, color, ethnicity, national origin, language, sex, size, gender identity or expression, sexual orientation, disability, age, or religion._

For more information about what support they provide and links to other resources, or to report a bias incident, view their website or contact:
