

# Introduction to GIS and Cartography (GEOG 3100/6100), Fall 2020

Instructor: Dr. Alexander Hohl  
 ([alexander.hohl@geog.utah.edu](mailto:alexander.hohl@geog.utah.edu))

This course is an introduction to the major concepts and applications of Geographic Information Systems (GIS) and cartography. You will learn about:

- Map making
- Geodata
- GIS software
- Spatial thinking

Lectures cover the principles and applications of GIS, as well as basic cartography and map design. Lab exercises focus on hands-on training using ESRI ArcGIS Pro software.
