

Geography 3350: RS Conservation and Environmental Management

(3 credits; BF, SUSC)

Fall 2020

Instructor: Ingrid Weinbauer

Email: ingrid.weinbauer@geog.utah.edu

Meeting Time: MW 1:25-2:45 GC 3700

- ✘ This course approaches environmental management and resource conservation from a geographic perspective and it will focus on human-environmental interactions. The class will consider the challenges currently facing resource conservationists, the science used to recognize environmental problems, and possible methods to prevent or mitigate the overuse of natural resources.

FIELD
TRIPS

- ✘ Focus of the course will be loosely centered around food, waste, water, and energy.
- ✘ Films, guest presentations, and fieldtrips during class time!
