STUDENT LEARNING OUTCOMES

1. Perform a diet and energy expenditure analysis utilizing computer software, analyze and interpret the results for dietary adequacy, health and risk for nutritionally-related chronic diseases, as well as make recommendations for improving nutritional health.

2. Integrate the scientific knowledge of nutrition, genetics, chemistry, metabolism, exercise and lifestyle while utilizing standards and guidelines to plan, evaluate, and manage diets to support life-long health.
3. Describe how the human body digests food, metabolizes and utilizes the nutrients and Calories/energy in health or disease; and identify risks factors for developing chronic disease including the interpretation of biochemical, clinical and anthropometrical laboratory measures.
4. Utilize basic nutritional scientific terminology; describe the essential nutrients and their role in normal metabolism; and identify good dietary sources of nutrients.
5. Evaluate food package label information - analytically and critically knowing the basis of the specific standards used for providing nutrition information; and understand the responsibility of the FDA to insure the safety of processed foods in order to make healthy food choices.
6. Identify scientific methods used; discern the reliability of nutrition information based on scientific evidence, source and professional credentials; in addition to describing the federal agencies and their responsibilities to insure public food safety, sustainable food production; and personal food handling skills to avoid food borne illness from a variety of microorganisms.

PREREQUISITES

High School Biology and Chemistry

REQUIRED MATERIAL

Contemporary Nutrition, A Functional Approach, 5th edition, Wardlaw G, Smith A, Collene A. McGraw Hill Publishers. This is bundled with other web-based material we use in class. All students have access to this book on CANVAS. Just click on the McGraw-Hill Connect link on the left side of the NUIP 1020 Canvas page, and follow instructions to register. There is no payment required for registering, you have already paid for the electronic materials with your class fees when you registered for the class.

Web based material used in class: Canvas will link you to the McGraw-Hill site where you can read the book chapters, then complete the LearnSmart homework modules required for this class. You will generally have 1-week to complete the homework module for each topic we cover before the module closes. It is your responsibility to complete them as we cover the topics week to week in class.

Live Weekly Discussion sessions via Zoom: Once per week I will hold a live discussion session on Zoom, the invite and login information will be posted on canvas under the Calendar. These are open discussion sessions where you can ask questions live, or you can email me a question before the Zoom discussion day, then log onto Zoom on the day of the discussion and listen for your answer. All students are highly encouraged to attend these virtual sessions so we can have a component of live interaction for this class. The sessions will take place on Wednesdays from 2-3PM.
LEARNING ASSESSMENTS

We have 3 categories of learning assessments: 1) Health Assessment Assignments, 2) Chapter Reading and homework Modules, and 3) Exams.

1) Health Assessment Assignments

Detailed instructions are found on Canvas under the Assignments link. Below is a brief description of the assignments.

a) Article Evaluation: You will read an article relating to nutrition and health that we provide you in order to evaluate its content and message. Download the assignment instructions from Canvas to get the questions that will guide you through the evaluation of the article.

Article Evaluation due 2-12-21

b) Diet Analysis: For this assignment you will record your food and drink intake for 3 days, then analyze it using the NutritionCalc Plus software found with your e-book. Download the assignment instructions found on Canvas to get a copy of the questions that you must answer after analyzing your diet.

Diet analysis due 3-22-21

c) Clinical Health Case Study: You will evaluate a case study of a patient's blood pressure, body composition, and blood cholesterol. Then you will address any potential emerging risk factors by making appropriate recommendations to change the patient's diet and lifestyle. Download the assignment instructions found on Canvas to get a copy of the questions that you must answer after analyzing your diet.

Clinical Health Case Study due 4-16-21

2) Chapter Reading and Homework Modules: In each Weekly module on canvas there is "Read this and Do this" assignment. These consist of a chapter reading assignment and a “LearnSmart” homework module linked to that chapter. These homework modules are graded and posted on the Canvas gradebook. Please note that you will have 1-week to complete these homework modules. Modules are open on a Monday, and due the following Monday. Refer to the calendar in Canvas to see when they are open and closed.

3) Exams: There will be 3 exams. The format is multiple choice and true/false questions. All Exams will consist of 40 questions worth 2.5 points each.

Tentative Exam dates:

February 19

March 26

April 30
FREQUENTLY ASKED QUESTIONS

- **What's the best way to go about managing my time for this class?**

  Successful students (those that get A’s and B’s) use their time wisely. The standard formula for college coursework is that for every 1 hour of credit a student will spend 3 to 6 hours (and sometimes more) of studying and completing homework. Thus, a 4 credit course will require an average of 12 to 24 hours of homework (reading, research, studying) per week. As a result, successful students plan their time so that they keep up with assignments by maintaining a pace that fits the course schedule. They also communicate with the instructor often so that they can receive feedback on their work. Please note the class is cumulative in nature. A good understanding of the material in the first part of the semester is necessary in order to proceed successfully throughout the remainder of the semester.

- **How can I find out how I did on exams and assignments?**

  All assignments will be returned via electronic uploads to Canvas. I encourage you all to review graded assignments and to contact me with any questions.

- **I missed an assignment due date, now what?**

  Late assignments (defined as assignments submitted between 1 minute and 5 days after the due date) will be deducted 10 points for each calendar day late. After 5 days an assignment worth 50 points will be worth 0 points. If there is a medical emergency or accident that causes you to miss the due date, please let me know as soon as possible. In that case late assignments will be accepted with no penalty as long as there is a valid excuse (doctors note or accident report for example) as proof.

- **What if I miss an exam?**

  There will be no make-up exams without prearranged permission from the instructor. If the incident resulting in a missed exam occurs on the due date - you will have 24 hours to contact me to make the necessary arrangements. Physician’s verification is required for illnesses or other documentation (e.g., doctor’s note, accident report, death certificate) for medical or emergency circumstances beyond your control. Late exams must be completed within one week of the first date the exam is offered. Contact your instructor via e-mail or voice mail prior to the scheduled exam time or within 24 hours after the incident. Missed exams without permission or acceptable medical or emergency excuse will be assigned a grade of zero, per University policy.

  If you know in advance that you need to take the exam at a different time than scheduled, your instructor will work with you to make arrangements. These *arrangements must be scheduled* at least...
1 week in *advance* of the exam for a time before the originally planned test date (i.e., if you are jetting to Cabo during the week of the exam, you may take the exam before you leave.)

### COURSE RESPONSIBILITIES

- All Health Assessment Assignments should be turned in on Canvas. Late assignments are deducted 10 points per day after the due date.
- **Do your own work**, do not collaborate with your classmates.
- Assignments showing signs of plagiarism will be given a zero and may fail the course.
- If you are to miss an exam you must notify me at least 1 week prior to the exam date.
- If you miss an exam without prior permission from me you will be allowed to take a make up exam only if you have a legitimate excuse that can be verified, such as an illness accompanied by a written physician’s note, an accident report, etc.
- Makeup exams will be arranged by the instructor.
- Missed exams without making prior arrangements, or a written excuse will receive a "zero" grade.

### UNIVERSITY POLICIES
COVID-19 Campus Guidelines

Students are required to self-report if they test positive for COVID-19. To report, please contact:

COVID-19 Central @ The U

📞 801-213-2874
🌐 coronavirus.utah.edu (https://coronavirus.utah.edu/)

To reduce the spread of COVID-19 on campus, **face coverings are required in all in-person classes for both students and faculty.** Face coverings are required to cover both your mouth and your nose. Please note that face shields alone are not an acceptable form of face covering unless also worn with a covering or mask for the nose and mouth.

Based on CDC guidelines, the University requires everyone to wear face coverings in shared public spaces on campus, including our classroom. As a reminder, when I wear a face covering, I am protecting you. When you wear a face covering, you are protecting me and all of your classmates. If you forget your face covering, I will ask you to leave class to retrieve it. **If you repeatedly fail to wear a face covering in class, I will refer you to the Dean of Students for a possible violation of the Student Code.**

Note that some students may qualify for accommodations through the Americans with Disabilities Act (ADA). If you think you meet these criteria and desire an exception to the face covering policy, contact the [Center for Disability and Access](https://t.e2ma.net/click/vlufyz/js70keu/#!/auqte) (CDA). Accommodations should be obtained prior to the first day of class so that I am notified by CDA of any students who are not required to wear a face covering.

If you believe you meet these criteria, contact:

Everyone is encouraged to wash their hands, use hand sanitizer, and clean their desks with wipes, which will be available at classroom entrances and at “sanitizing stations” in multi-use buildings, including Marriott Library. Read more information about the building cleaning schedule on [coronavirus.utah.edu](https://coronavirus.utah.edu/).

---

**Drop/Withdrawal Policies**

Students may drop a course within the first two weeks of a given semester without any penalties.

Students may officially withdraw (W) from a class or all classes after the drop deadline through the midpoint of a course. A “W” grade is recorded on the transcript and appropriate tuition/fees are assessed. The grade “W” is not used in calculating the student’s GPA.
For deadlines to withdraw from full-term, first, and second session classes, see the U's Academic Calendar (https://registrar.utah.edu/academic-calendars/index.php).

Plagiarism & Cheating

It is assumed that all work submitted to your instructor is your own work. When you have used ideas of others, you must properly indicate that you have done so.

Plagiarism and cheating are serious offenses and may be punished by failure on an individual assignment, and/or failure in the course. Academic misconduct, according to the University of Utah Student Code,

“...Includes, but is not limited to, cheating, misrepresenting one’s work, inappropriately collaborating, plagiarism, and fabrication or falsification of information...It also includes facilitating academic misconduct by intentionally helping or attempting to help another to commit an act of academic misconduct.”

For details on plagiarism and other important course conduct issues, see the U's Code of Student Rights and Responsibilities (http://regulations.utah.edu/academics/6-400.php).

Course Materials Copyright

The Content is made available only for your personal, noncommercial educational and scholarly use. You may not use the Content for any other purpose, or distribute, post or make the Content available to others, unless you obtain any required permission from the copyright holder. Some Content may be provided via streaming or other means that restrict copying; you may not circumvent those restrictions. You may not alter or remove any copyright or other proprietary notices included in the Content.

Please see the Code of Student Rights and Responsibilities (https://regulations.utah.edu/academics/6-400.php), Section III.A.5 regarding use and distribution of class Content and materials. https://regulations.utah.edu/academics/6-400.php (https://regulations.utah.edu/academics/6-400.php).

Section III.A.5. prohibits the following:
Sale or distribution of information representing the work product of a faculty member to a commercial entity for financial gain without the express written permission of the faculty member responsible for the course. (“Work product” means original works of authorship that have been fixed in a tangible medium and any works based upon and derived from the original work of authorship.)

Safety at the U

The University of Utah values the safety of all campus community members. You will receive important emergency alerts and safety messages regarding campus safety via text message.

**Addressing Sexual Misconduct**

Title IX makes it clear that violence and harassment based on sex and gender (which includes sexual orientation and gender identity/expression) is a civil rights offense subject to the same kinds of accountability and the same kinds of support applied to offenses against other protected categories such as race, national origin, color, religion, age, status as a person with a disability, veteran’s status, or genetic information.

If you or someone you know has been harassed or assaulted, you are encouraged to report it to university officials:

Diverse Student Support

Your success at the University of Utah is important to all of us here! If you feel like you need extra support in academics, overcoming personal difficulties, or finding community, the U is here for you.

**Student Support Services (TRIO)**

TRIO federal programs are targeted to serve and assist low-income individuals, first-generation college students, and individuals with disabilities.

Student Support Services (SSS) is a TRIO program for current or incoming undergraduate university students who are seeking their first bachelor’s degree and need academic assistance and other services to be successful at the University of Utah.

**Undocumented Students**

Immigration is a complex phenomenon with broad impact—those who are directly affected by it, as well as those who are indirectly affected by their relationships with family members, friends, and loved ones. If your immigration status presents obstacles that prevent you from engaging in specific activities or fulfilling specific course criteria, confidential arrangements may be requested from the Dream Center.

**Arrangements with the Dream Center will not jeopardize your student status, your financial aid, or any other part of your residence.** The Dream Center offers a wide range of resources to support undocumented students (with and without DACA) as well as students from mixed-status families.

Inclusivity at the U

The Office for Inclusive Excellence is here to engage, support, and advance an environment fostering the values of respect, diversity, equity, inclusivity, and academic excellence for students in our increasingly global campus community. They also handle reports of bias in the classroom as outlined below:

Bias or hate incidents consist of speech, conduct, or some other form of expression or action that is motivated wholly or in part by prejudice or bias whose impact discriminates, demeans, embarrasses, assigns stereotypes, harasses, or excludes individuals because of their race, color, ethnicity, national origin, language, sex, size, gender identity or expression, sexual orientation, disability, age, or religion.
