COURSE DESCRIPTION AND INSTRUCTOR INFORMATION

Course Description:

- **Course Number and Title:** Math 1090-90, Business Algebra (Asynchronous Online Section)
- **Semester and Year:** Spring 2022
- **Course Overview:** In Math 1090, College Algebra for Business and Social Sciences, students will gain a background of algebra topics that will be important in future business classes. Topics include functions and graphs, polynomial and rational functions, matrices, Gaussian elimination, exponential and logarithmic functions, growth, periodic and continuously compounded interest, arithmetic and geometric sequences, annuities and loans. Math1090 is a 3-credit semester course and satisfies the University's QA requirement.
- **Discussion Board:** I encourage you to post questions, especially about HW, and responses in online Canvas Discussions. I try to avoid posting to the discussion board myself since it is meant for you to communicate with each other. If you need to contact me directly, please use a Canvas message.
- **Course Type:** In-person classes, location: BEH S 101
- **Meeting Days and Times:** Monday & Wednesday 8:05AM - 9:25AM

Instructor Information:

- **Instructor:** Matthew (Blue) Taylor (he/him/his)
- **Email:** blue@math.utah.edu
- **Office Hours:** I will have two different weekly office hour slots. The times will be assigned after getting responses from a survey I will send out.

COURSE DETAILS

- **Prerequisites:** Starting in Summer 2021, the Math Department will not be using prerequisites to place students in math classes. Students are responsible for determining whether they are ready for the course they select. The former prerequisites for Math 1090 are listed below. These are still recommended as guidelines to determine if you have the background to be successful in this course (without a lot of additional work on your part):
  - C or better in Math980 (Beginning Algebra), Math1010(Intermediate Algebra) OR Math1030 (Quantitative Reasoning)
  - 240+ in Accuplacer AAF (The UofU provides one free Accuplacer exam to all students. https://testingcenter.utah.edu/students/placement-tests/math-placement.php)
  - 23+ in ACT Math
  - 570+ in SAT Math
  - Qualifying GPA 3.35

- **Course Materials:**

  - **Additional course materials:**
    - The course website is in Canvas.
    - The university has recorded lectures for MATH 1090, available at http://www.math.utah.edu/lectures/math1090.php You should watch the corresponding video(s) before each class session.
    - We will use the online site, Gradescope, for grading and giving feedback on exams. There is a link in Canvas to Gradescope. You may be asked to submit assignments directly to Gradescope.
Technical requirements:
- A scientific calculator is needed for some homework and exams. On exams, you are allowed to use a basic scientific calculator, so long as it does not have graphing or scientific formula functionality. You are not allowed to use a phone or computer calculator app. If you are uncertain whether your calculator meets requirements, ask me.
- Access to the Internet – to access course materials
- A scanning device – to turn in some assignments

Attendance: Students are expected to attend classes and, if classes are missed, go through the material covered in class by watching videos, reading the textbook, and thinking about course ideas. If you miss a quiz or other in-class assignment, instead of having make-ups, a certain number of assignments will be dropped at the end of the semester. For exams, exceptions are made if there are extenuating circumstances. (See Grading policies later in the syllabus for more details.)

Emergencies: Things will happen. Your internet will turn off right before a deadline. You will need to work late and forget to submit. You may get sick. If you miss a quiz, homework, or other in-class assignment, instead of having make-ups or extensions, a certain number of assignments will be dropped at the end of the semester. These are for the emergencies (including the very serious ones). For exams, exceptions are made if there are extenuating circumstances with documentation. (See Grading policies later in the syllabus for more details.)

UofU Learning Support:
- Math Center Tutoring, (Paid for by Your Student Fees)
  http://www.math.utah.edu/undergraduate/mathcenter.php
- The Learning Center, 3 free tutoring sessions, $5 after that, learning consultations
  https://learningcenter.utah.edu/
- Student Success Advocates https://ssa.utah.edu/events.php

General Help:
- Here is information from the University about logistics in light of COVID. There is also information about financial assistance, counseling, the food pantry, and much more. https://coronavirus.utah.edu/#students

Equipment Help:
- The UofU has a laptop and mobile hotspot loan program – laptops, mobile hotspots mailed to current U students on a first-come, first-served basis. You can find out more information about this through this link: https://lib.utah.edu/coronavirus/checkout-equipment.php
- For technical assistance, review the Canvas Getting Started Guide for Students https://community.canvaslms.com/docs/DOC-10701 and/or contact TLT, Knowledge Commons, etc.

COURSE EXPECTED LEARNING OUTCOMES (ELOs)

1. Graph and analyze quadratic, exponential and logarithmic functions; solve quadratic, exponential and logarithmic equations.
2. Understand what a mathematical function is and know how to use linear, quadratic, logarithmic and exponential functions to model real world examples.
3. Know how to solve a system of linear or quadratic equations that arise in business applications.
4. Find solutions to linear programming problems, to maximize a function over a geometric region.
5. Perform simple matrix algebra computations.
6. Use matrices to solve systems of linear equations.
7. Understand what an inverse function is and be able to find the inverse function, when it exists.
8. Distinguish between simple and compound interest situations.
9. Calculate future and present value of annuities, and know when to use which formula for the life application.
10. Compute an amortization schedule and loan payments, such as automobile or mortgage payments.
COURSE DESIGN

● **Lectures/Class Time:** We will use the flipped classroom method where students watch pre-recorded outside of classtime: [http://www.math.utah.edu/lectures/math1090.php](http://www.math.utah.edu/lectures/math1090.php) These should be watched before the class session in which we discuss them. You can see the course schedule below. During class time the focus will be on students actively doing math problems together based on what was presented in the pre-recorded lectures. After the first two weeks I will assess to see how it is working and decide whether to continue or use a more traditional lecture based style. Active Participation is encouraged. Research and experience has shown that students learn and retain mathematics best when they are more active with the content. To that end I will provide opportunities for students to discuss and work on the material with each other and as a class. One of my favorite math quotes is, “Mistakes are Expected, Respected, and Inspected.” I hope we can collaboratively create an environment where we are comfortable sharing our mathematical thoughts or processes during discussions without letting fear of making mistakes hold us back.

● **Homework Assignments:** HW will be assigned from the textbook and submitted in Canvas. There will be a few non-textbook assignments as well. Each assignment should be a single pdf file. Assignments will usually be due on Wednesdays and Fridays. The three lowest assignment scores will be dropped at the end of the semester. Some problems/questions will be selected to be graded for accuracy and the rest for completion. Some of the factors contributing to a good score include: correctness, neatness, proper steps shown and thought process made clear, variables labeled, etc. It is not sufficient to simply copy answers from the back of the book.

● **Quizzes:** Expect quizzes at least once a week except on Exam days. They will be given in class generally for 10 to 30 minutes depending on the length.

● **Successful habits:** I will periodically post strategies and tips for studying and being a successful student. As a current student I try to implement many of these strategies myself. Last semester some students let me know they found them useful not just in math class but in other courses too.

● **Two midterm exams.** You may/should prepare 1 sheet of notes to use during the exam. You should also have a scientific calculator. No other materials are allowed during the exam.

● **Final Exam:** Math 1090 students take a final exam at a date and time set by the University (see information below). There is a final at the end of the course. It covers material not on previous exams and selected topics from earlier in the course. The procedures will be similar to the midterm exams.
### CLASS SCHEDULE & IMPORTANT DATES

**Weekly Deadlines:**
- Homework – due Wednesday and Fridays at 11:59 pm
- Quizzes & Exams – during class

**Tentative Schedule of Topics – to be adjusted as necessary**

<table>
<thead>

</tbody>
</table>

**Important Dates:**
- Classes begin: Monday, January 10
- Last day to add without a permission code/wait list: Friday, January 14
- Last day to add or drop classes: Friday, January 21
- MLK Day (no class) Monday, January 17
- **Exam 1: Monday, February 14th**
- Presidents’ Day (no class) Monday, Feb 21
- Spring Break: Monday Mar 6 – Friday, Mar 10
- Last Day to Withdraw from Classes, Friday, April 1
- **Exam 2: Monday, April 4th**
Last Day of Class Tuesday, April 26
Final Exam: Friday, 4/29 3:30-5:30

Note: Because this particular class section is on Mondays and Wednesdays and there are two holidays which fall on Monday, we only have 26 class times to do 31 textbook sections as well as include time for exams and quizzes. I will do my best to ensure we work through as much as possible but this means we will likely not have any days for review. I therefore encourage you to use additional resources as much as possible including the Math 1090 instructional videos, the textbook, your own study groups, discussions with classmates on Canvas, and the Math Center for tutoring. Even with a class section with more meeting times these are still good things to do and speaking as a current student myself I consider the lectures of my professors as but one part of my learning process.

ASSIGNMENTS, ASSESSMENT, GRADING, & LATE POLICY

Grading Scale:

- A [93-100),
- A- [90-93),
- B+ [87-90),
- B [83-87),
- B- [80-83),
- C+ [77-80),
- C [73-77),
- C- [70-73),
- D+ [67-70),
- D [60-67),
- D- [50-60),
- E [0-50).

Regrading Policy: If a grade is recorded incorrectly, it is the student’s responsibility to let the instructor/grader know in a timely manner (at the latest within 2 weeks of when the grade was recorded.)

Late/Makeup Work: The course is designed to provide flexibility if you occasionally cannot turn work in on time. A certain number of scores at the end of the semester are dropped. But in general, you are expected to turn things in on time and take quizzes and exams at the times given. If there are extenuating circumstances, please contact me in a timely way to discuss alternatives. If the situation is one that can be documented, you may be asked to provide documentation.

The University of Utah student code allows for making up quizzes or exams in advance for “officially sanctioned University Activities …, or government obligations, or religious obligations”. Please contact me at least one week in advance of any events.

Extreme Situations: If you have an extraordinarily severe situation, contact me, your instructor ASAP.

Credit/No Credit Option:

- If you are taking Math 1090 to meet a major or minor requirement, then you should opt for a letter grade, rather than credit/no credit (CR/NC).
● This is the official University description of the credit/no credit option: “The credit/no credit (CR/NC) option allows a student to enroll in selected courses outside of his/her academic plan, without the pressure of competing for a letter grade. By electing CR/NC, students are expected to complete the same work as students enrolled for letter grades.” If you are interested in credit/no credit, consult the following:
  ● University guidelines: https://catalog.utah.edu/#/policy/B12v3LX0G?bc=true&bcCurrent=Grading%20Poli
  ● Consider speaking with an academic advisor to determine whether this is a good option.

Incompletes:
According to university policy, to be considered for an incomplete, a student must have 20% or less of the course work remaining and be passing the course with a C or better. You must request an incomplete grade and I will consider giving that grade only under exceptional circumstances.

COMMUNICATION

● Class announcements will be done via email through the Canvas server and in the Canvas announcements page. You will be responsible for any information contained in them as well as the information announced in class. Students are also strongly advised to set up notifications for canvas so they do not miss any important notifications.
● It is your responsibility to also regularly check your Umail (make sure you set up forwarding if you do not check it regularly), your Umail is the only way for me to communicate privately with you, there will be occasions during the semester that we may need to reach out to you individually (e.g. regarding a grade or assignment) and it is in your best interest to respond promptly.
● I will stay after class when I can for students who might have questions and you can email me at blue@math.utah.edu. I will do my best to answer emails within two school days. I might or might not check email on weekends and holidays. I would like to encourage you to email me only if it is something personal that requires individual attention. If instead you have questions about the logistics of the class, course material and assignments, or anything else your classmates might wonder as well, please post a question on the Canvas Discussions Board. This way the information is shared quickly to the entire class, and everyone benefits from seeing other classmates’ questions and responses. To foster collaboration I will try to refrain from immediately responding when possible to allow classmates to respond to each other’s questions.
NETIQUETTE - EXPECTATIONS FOR ONLINE LEARNING ENVIRONMENT

- Respectful participation in all aspects of the course will make our time together productive and engaging. Zoom lectures, discussion threads, emails and canvas are all considered equivalent to classrooms and student behavior within those environments shall conform to the student code. Specifically:
  - Posting photos or comments that would be off-topic in a classroom are still off-topic in an online posting.
  - Disrespectful language and photos are never appropriate.
  - Using angry or abusive language is not acceptable, and will be dealt with according to the Student Code. The instructor may remove online postings that are inappropriate.
  - Do not use ALL CAPS, except for titles, or overuse certain punctuation marks such as exclamation points and question marks.
  - Course e-mails, e-journals, and other online course communications are part of the classroom and as such, are University property and subject to the Student Code. Privacy regarding these communications between correspondents must not be assumed and should be mutually agreed upon in advance, in writing.
  - Here are additional expectations for online communication (on Discussion Board, Emails, Zoom chat etc):
    - When emailing your Instructor and Teaching Team keep a professional tone. This includes using a descriptive subject line, beginning the e-mail with a Dear Blue or Instructor Blue. Sign your message with your name and return e-mail address. Please consult this page for tips on how to write appropriate professional emails: https://academicpositions.com/career-advice/how-to-email-a-professor
    - Treat your instructor, grader, teaching team and classmates with respect in email or any other communication.
    - Avoid slang terms such as “wassup?” and texting abbreviations such as “u” instead of “you.”
    - Be cautious when using humor or sarcasm as tone is sometimes lost in an email or discussion post and your message might be taken seriously or be offensive to others.
    - Be careful with personal information (both yours and others).
  - Electronic or equipment failure: It is your responsibility to maintain your computer and related equipment in order to participate in the online portion of the course. Equipment failures will not be an acceptable excuse for late or absent assignments.
  - Online submissions: You are responsible for submitting the assignment with the required naming convention, correct file extension, and using the software type and version required for the assignment.
  - Canvas allows students to change the name that is displayed AND allows them to add their pronouns to their Canvas name.

ACADEMIC CODE OF CONDUCT

Students are encouraged to review the Student Code for the University of Utah: https://regulations.utah.edu/academics/6-400.php. In order to ensure that the highest standards of academic conduct are promoted and supported at the University, students must adhere to generally accepted standards of academic honesty, including but not limited to refraining from cheating, plagiarizing, research misconduct, misrepresenting one's work, and/or inappropriately collaborating. A student who engages in academic misconduct as defined in Part I.B. may be subject to academic sanctions including but not limited to a grade reduction, failing grade, probation, suspension or dismissal from the program or the University, or revocation of the student's degree or certificate. Sanctions may also include community service, a written reprimand, and/or a written statement of misconduct that can be put into an appropriate record maintained for purposes of the profession or discipline for which the student is preparing.
COVID CONSIDERATIONS
University leadership urges all faculty, students, and staff to model the vaccination, testing, and masking behaviors we want to see in our campus community. These include:
- Vaccination
- Masking indoors
- If unvaccinated, getting weekly asymptomatic coronavirus testing
- Quarantining after exposure

Vaccination:
Get a COVID-19 vaccination and the booster shot recommended for pairing with your vaccine if you have not already done so. Vaccination is proving highly effective in preventing severe COVID-19 symptoms, hospitalization and death from coronavirus. Vaccination is the single best way to stop this COVID resurgence in its tracks.
To schedule your vaccination visit:
- http://mychart.med.utah.edu/
- http://alert.utah.edu/covid/vaccine

Masking:
While masks are not required outside of Health Sciences facilities, on UTA buses or campus shuttles, CDC guidelines now call for everyone to wear face masks indoors.
- Check the CDC website periodically for masking updates—
  With high transmission rates in Salt Lake County, the CDC recommends: "Everyone should wear a mask in public indoor settings."
- Treat masks like seasonal clothing (i.e., during community surges in COVID transmission, they should be worn indoors and in close groups outside).
- In cases of classroom exposure, masks should be worn for the quarantine period (see details below).

Testing:
If you are not yet vaccinated, get weekly asymptomatic coronavirus tests. This is a helpful way to protect yourself and those around you because asymptomatic individuals can unknowingly spread the coronavirus to others.
Asymptomatic testing centers are open and convenient:
- Online scheduling
- Saliva test (no nasal swabs)
- Free to all students returning to campus (required for students in University housing)
- Results often within 24 hours
- Visit alert.utah.edu/covid/testing

Remember:
Students, faculty and staff must self-report if they test positive for COVID-19 via this website:
https://coronavirus.utah.edu/.
ADDITIONAL POLICIES AND RESOURCES

Plagiarism and Academic Integrity: Academic integrity means that scholars, including students, conduct their work ethically. This includes taking credit only for work they themselves perform. Violations of academic integrity undermine the principle of fairness, devalue your degree, and leave you underprepared for applying what you have been taught. In this way, it defrauds you, your classmates, the university, and the people you will serve with your education after graduation. It includes cheating on tests and other assessments, collaborating on projects when not permitted to, presenting other people’s work as yours (whether they agree to that), and more. Plagiarism is a serious offense against academic integrity that could result in failure for the test or paper, failure for the course, and expulsion from the university. Plagiarism usually involves passing off the work, words, or ideas of others as your own without giving proper credit.

Privacy Policy: FERPA, the federal law that guards student privacy, prohibits me from discussing your performance in this class with anyone except you without your permission, which must be on file with the university, not simply told to me. To ensure compliance with this law, send e-mail with a university e-mail address or via Canvas mail.

Out of respect for the privacy of your classmates, do not record or screenshot any part of this class for use outside of this class, even if you omit identifying information about the speaker or poster. You may not circulate or share images, clips, or other course materials with individuals who are not enrolled in this class. Doing so is a serious violation of our class ethical code and will result in a charge of academic misconduct.

Inclusivity Statement: It is my intent that students from all diverse backgrounds and perspectives be well served by this course, that students’ learning needs be addressed both in and out of class, and that the diversity that students bring to this class be viewed as a resource, strength and benefit. It is my intent to present materials and activities that are respectful of diversity: age, color, disability, gender, gender identity, gender expression, national origin, political affiliation, race, religion, sexual orientation, and veteran status, and other unique identities. gender, sexuality, disability, age, socioeconomic status, ethnicity, race, culture, and other unique identities. Your suggestions are encouraged and appreciated. Please let me know ways to improve the effectiveness of the course for you personally or for other students or student groups. In addition, if any of our class meetings conflict with your religious events, please let me know so that we can make arrangements for you.

Discrimination and Harassment: If you or someone you know has been harassed or assaulted, you are encouraged to report it to the Title IX Coordinator in the Office of Equal Opportunity and Affirmative Action, 135 Park Building, 801-581-8365, or Office of the Dean of Students, 270 Union Building, 801-581-7066. To report to the police, contact the Department of Public Safety, 801-585-2677(COPS). Please see Student Bill of Rights, section E http://regulations.utah.edu/academics/6-400.php. I will listen and believe you if someone is threatening you.

Names/Pronouns. If I do not say your name correctly or mispronounce it, please, politely let me know so I can get it right. Canvas allows students to change the name that is displayed AND allows them to add their pronouns to their Canvas name. Class rosters are provided to the instructor with the student’s legal name as well as “Preferred first name” (if previously entered by you in the Student Profile section of your CIS account, which can be managed at any time). While CIS refers to this as merely a preference, I will do my best to respect your pronouns and preferred name. Please advise me of any name or pronoun changes so I can help create a learning environment in which you, your name, and your pronoun are respected. If you need any assistance or support, please reach out to the LGBT Resource Center. https://lgbt.utah.edu/campus/faculty_resources.php

English Language Learners. If you are an English language learner, please be aware of several resources on campus that will support you with your language and writing development. These resources include: the Writing Center (http://writingcenter.utah.edu/); the Writing Program (http://writing-program.utah.edu/); the English Language Institute (http://continue.utah.edu/eli/). Please let me know if there is any additional support you would like to discuss for this class.

Undocumented Student Support. Immigration is a complex phenomenon with broad impact—those who are directly affected by it, as well as those who are indirectly affected by their relationships with family members, friends, and loved ones. If your immigration status presents obstacles to engaging in specific activities or fulfilling specific course criteria, confidential arrangements may be requested from the Dream Center. Arrangements with the Dream Center will not jeopardize your student status, your financial aid, or any other part of your residence. The Dream Center offers a wide
range of resources to support undocumented students (with and without DACA) as well as students from mixed-status families. To learn more, please contact the Dream Center at 801.213.3697 or visit dream.utah.edu.

Veterans Center. If you are a student veteran, the U of Utah has a Veterans Support Center located in Room 161 in the Olpin Union Building. Hours: M-F 8-5pm. Please visit their website for more information about what support they offer, a list of ongoing events and links to outside resources: http://veteranscenter.utah.edu/. Please also let me know if you need any additional support in this class for any reason.

Wellness Statement. Personal concerns such as stress, anxiety, relationship difficulties, depression, cross-cultural differences, etc., can interfere with a student’s ability to succeed and thrive at the University of Utah. For helpful resources contact the Center for Student Wellness at www.wellness.utah.edu or 801-581-7776.

Student Success Advocates: The mission of Student Success Advocates is to support students in making the most of their University of Utah experience (ssa.utah.edu). They can assist with mentoring, resources, etc. Any student who faces challenges securing their food or housing and believes this may affect their performance in the course is urged to contact a Student Success Advocate for support (https://asuu.utah.edu/displaced-students).

The Americans with Disabilities Act: The University of Utah seeks to provide equal access to its programs, services and activities for people with disabilities. If you will need accommodations in the class, reasonable prior notice needs to be given to the Center for Disability & Access, 162 Olpin Union Building, 801-581-5020. CDA will work with you and the instructor to make arrangements for accommodations. All written information in this course can be made available in alternative format with prior notification to the Center for Disability & Access.

Addressing Sexual Misconduct: Title IX makes it clear that violence and harassment based on sex and gender (which includes sexual orientation and gender identity/expression) is a Civil Rights offense subject to the same kinds of accountability and the same kinds of support applied to offenses against other protected categories such as race, national origin, color, religion, age, status as a person with a disability, veteran’s status or genetic information. If you or someone you know has been harassed or assaulted on the basis of your sex, including sexual orientation or gender identity/expression, you are encouraged to report it to the University’s Title IX Coordinator; Director, Office of Equal Opportunity and Affirmative Action, 135 Park Building, 801-581-8365, or to the Office of the Dean of Students, 270 Union Building, 801-581-7066. For support and confidential consultation, contact the Center for Student Wellness, 426 SSB, 801-581-7776. To report to police, contact the Department of Public Safety, 801-585-2677(COPS), https://police.utah.edu/.

Campus Safety: The University of Utah values the safety of all campus community members. To report suspicious activity or to request a courtesy escort, call campus police at 801-585-COPS (801-585-2677). You will receive important emergency alerts and safety messages regarding campus safety via text message. For more information regarding safety and to view available training resources, including helpful videos, visit safeu.utah.edu

University Counseling Center The UCC staff is committed to supporting the mental health needs of our campus community. Their phone number is 801-581-6826. Their hours are Monday-Friday, 8:00am-5:00pm. For after-hours emergencies, contact the 24/7 Crisis Line: 801-587-3000. More information is at https://counselingcenter.utah.edu/.

Office of the Dean of Students The Office of the Dean of Students is dedicated to being a resource to students through support, advocacy, involvement, and accountability. It serves as a support for students facing challenges to their success as students, and assists with the interpretation of University policy and regulations. To contact the Office of the Dean of Students, please email deanofstudents@utah.edu or call 801-581-7066. There is more information at https://deanofstudents.utah.edu/.

Syllabus subject to change: This syllabus is meant to serve as an outline and guide for our course. Please note that I may modify it with reasonable notice to you. I may also modify the Course Schedule to accommodate the needs of our class. I will inform you in class and/or in Canvas.
