Class time and location: Mondays and Wednesdays 6:00 pm to 7:30 pm in JTB 130

Instructor: Marin Petkovic; office LCB 112

e-mail address: petkovic@math.utah.edu (please do not use canvas messaging).

Office hours: TBD, and by appointment

COVID-19 considerations: see https://coronavirus.utah.edu

- **Vaccines:** Students who attend the University of Utah are required to be fully vaccinated against measles, mumps, and rubella (MMR). With the full FDA approval of the Pfizer COVID-19 vaccine, the University also requires COVID-19 vaccination. Booster is now available for all people over 18 who have previously received a COVID-19 vaccine.

- **Masks:** According to the CDC, wearing a mask remains an effective means of preventing infection for both unvaccinated and vaccinated people. Regardless of what someone chooses (mask or no mask), the University seeks to foster a sense of community and asks everyone on campus to respect individual decisions on mask-wearing. While masks and face coverings are no longer required outside Health Sciences facilities, UTA buses, and campus shuttles, CDC guidelines now call for everyone to wear face masks indoors. I strongly encourage students to consider wearing a mask while in class to protect themselves and others.

- **Testing and Exposure** The University will continue to follow guidance from the CDC for testing, contact tracing, and exposure management. When exposure is reported, the contact tracing team will engage and advise the next steps. Please note that vaccination status is part of the contact tracing protocol. Voluntary asymptomatic testing will continue to be available weekly for all campus community members.

Free asymptomatic testing is available to all students (as well as faculty and staff) as they return to campus, and coronavirus tests were required for students living in university housing at move-in. For more information or to schedule an asymptomatic coronavirus test, visit https://alert.utah.edu/covid/testing/ Those who are vaccinated may also sign up for asymptomatic testing in case of exposure.

- **Students must self-report if they test positive for COVID-19** via this website: https://coronavirus.utah.edu.

- If you tested positive for COVID-19, or have COVID-19 symptoms, or have been exposed to someone who tested positive, you should let me know as soon as possible. The Contact Tracing Team will get in touch with you soon after that.

- **If you are not yet vaccinated, get weekly asymptomatic coronavirus tests.**

Through the inclusive access program, you will have access to an e-book version of the course text, Using & Understanding Mathematics, A Quantitative Reasoning Approach, by Bennett and Briggs, the 7th edition,
and the online homework site, MyLab and Mastering. Inclusive Access is a program between the publisher and the U of U where the cost of your course materials is added to your tuition bill. This program reduces the cost of course materials for students because the purchase is made in bulk for all students in a course rather than individually. The cost is $65.85.

**Video lectures** (supplemental material) are available through the Department of Mathematics. [http://www.math.utah.edu/lectures/math1030.html](http://www.math.utah.edu/lectures/math1030.html)

**Prerequisites:** Starting in Summer 2021 (until Summer 2022), the Math Department will not be using prerequisites to place students in math classes. Instead, the Math Department is moving to informed self-placement, and students are responsible for determining whether they are ready for the course they select. The former prerequisites for Math 1030 are listed below. These are still recommended as guidelines to determine if you have the background to be successful in this course (without much additional work on your part):

- at least a C grade in Math 980 or Math1010, or
- Math ACT score of at least 19, or
- Math SAT score of at least 500, or
- Accuplacer QAS score of at least 250 (The UofU provides one free Accuplacer exam to all students. [https://testingcenter.utah.edu/students/placement-tests/math-placement.php](https://testingcenter.utah.edu/students/placement-tests/math-placement.php))

To help students make the right decision, the Math Department has prepared some helpful videos (series of 5) and materials. Please go to: [www.math.utah.edu/undergraduate/placement.php](http://www.math.utah.edu/undergraduate/placement.php)

Before entering this class, you should be able to manipulate variable expressions, work with simple linear equations and graphs, work with fractions and exponents, and know the basic properties of simple geometric shapes.

(Note: Math 1030 does not satisfy a Math 1050 or Math 1090 prerequisite.)

**Course objectives:** Math 1030 course will fulfill the Quantitative Reasoning Math QA, general education requirement for graduation.

This course addresses the following **Essential Learning Outcomes:** inquiry and analysis, critical thinking, written and oral communication, quantitative literacy, teamwork, and problem-solving.

Math 1030 is an application-based course centered around the use of mathematics to model changes in the real world and the effective communication of these mathematical ideas. The course is based on **Chapters 1-4, 8, and 9.** You are expected to read each section that we cover.

**Weekly workload:** According to the University of Utah, a 3-unit course should have about 3 hours of lecture per week and 6-9 hours of additional study/homework time every week. This might not be the case for all students, as some will be able to get by on less, and some students will need more.

**At the end of the course a student should be able to:**

- use Venn diagrams to examine relationships between sets and the validity of simple deductive arguments
- use an appropriate sentence to describe both the absolute and percent change in a given quantity and interpret such statements about the change
- use simple and compound units, making conversions when necessary, and develop accurate comparisons between units
• evaluate the impact of compound interest on simple financial decisions
• use the savings plan and loan formulas to calculate the payment amount into the savings plan when a certain financial goal needs to be achieved, to calculate the mortgage payment or interest paid over the life of the loan, and discuss whether those results are realistic (or not), compare several loans with different interest rates in order to make financial decisions
• compare and illustrate the features of linear and exponential growth using practical examples
• create linear and exponential models

The Structure of the Course

Each week, we cover specific sections. You can choose when you work on the material in the week (as long as you meet deadlines), but you can not complete the course at your own pace, as there are specific due dates throughout the semester.

Here is a breakdown of the components in the course:

• **Online Homework: (15%)** The homework is given through MyLab. Working through problems helps you understand and master the material. Completing homework is worth 15% of the grade. The scores are imported to Canvas. The lowest three assignment scores are dropped at the end of the semester. You can request an extension to complete homework late.

• **Quizzes: (15%)** The quiz dates are given in your Daily Schedule document. The quizzes are worth 15% of your grade. Quizzes will be given in class on the date it is scheduled for. There are (at least) 7 quizzes throughout the semester. Make-up quizzes are not allowed. However, the lowest two quiz scores will be dropped at the end of the term. You are allowed to use a scientific or graphing calculator for your quizzes.

• **Project: (15%)** This project is an in-depth 7-10 page paper in which you implement some of the mathematics of the course. The project is worth 15% of your grade. You will have the option to choose your topic and your group. The project will be due on Wednesday, April 13th (due by 11 pm, submitted on Canvas). The list of topics is already posted (“Files” tab, “Project” folder), and you will work in groups of about three students on a topic that you select from the list. We will discuss the format and expectations for this project before you start working on it. The group sign-up will be available on Canvas (due on FRIDAY, February 11th, 8 pm). Late projects are accepted with a penalty of 10 percent for each time the class meets, and the group does not turn in the project. If it is turned in on Wednesday, April 14th, 10 percent is deducted. You must inform me in advance if you are planning to turn in your project late.

• **Midterms (30%)**: There will be three midterm exams totaling 30% of your grade. Exams will be given in class during class time. Your lowest exam score will be dropped at the end of the semester. You are allowed to use a scientific or graphing calculator. You are not allowed to use your phone. See further comments about academic misconduct below.

Exam 1: February 16th (Wednesday),  
Exam 2: March 16th (Wednesday)  
Exam 3: April 20th (Wednesday)

Except under extremely unusual circumstances, you must inform me at least five days in advance of the missed test, and you must take the make-up exam prior to the actual exam date. University excused absences (band, debate, student government, intercollegiate athletics, etc.), military duty, or religious obligations are excused with official documentation addressing the reason for absence. You are expected to promptly make arrangements with me to make up the test. Vacation or work schedules are not considered to be excused absences.

NOTE: Students with approved absences will take the make-up exams BEFORE they leave. Usually, these will be taken at the Exam Services at the Marriott Library. This center is typically open from 9
am-5 pm Monday-Friday, and has some hours on Saturday, but the hours will vary week to week. It is the students’ responsibility to check the center’s hours. Students must register for a time slot to take their quiz or exam. Location: Marriott Library, Room 1704Phone: 801-581-6112 (option 3)
Website: https://testingcenter.utah.edu/

- **Final (comprehensive/departmental) Exam:** (25%) The final exam is comprehensive and worth 25% of your grade.
  
  **Final Exam:** May 3rd, Tuesday 3:30 pm - 5:30 pm (on Zoom, proctored)
  
  This date and time are assigned by the University of Utah scheduling office.
  
  You can view the Spring 2021 final exam schedule at (math 1030 is listed under the departmental finals): [https://registrar.utah.edu/academic-calendars/final-exams-spring.php](https://registrar.utah.edu/academic-calendars/final-exams-spring.php)
  
  Students are not allowed to take early/late departmental final exams. Please do not schedule your trip before this date, or do not ask me to give you extra time to study.

**Grading Policy:** Your grade will be based on:

- **Quizzes** 15%
- **Homework** 15%
- **Group Project** 15%
- **Exams (3 exams)** 30%
- **Final exam** 25%

It is the student’s responsibility to ensure the accuracy of all recorded homework, quizzes, and exam grades. Also, you should keep as record all your graded assignments. If you see any error in your grades on Canvas, reach out to the instructor as soon as possible.

**Course Grades (Evaluation methods and criteria):** Your final letter grade will be determined by your overall percentage as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>93 – 100%</td>
</tr>
<tr>
<td>A-</td>
<td>90 – 92.99%</td>
</tr>
<tr>
<td>B</td>
<td>83 – 86.99%</td>
</tr>
<tr>
<td>B-</td>
<td>80 – 82.99%</td>
</tr>
<tr>
<td>B+</td>
<td>87 – 89.99%</td>
</tr>
<tr>
<td>C</td>
<td>73 – 76.99%</td>
</tr>
<tr>
<td>C-</td>
<td>70 – 72.99%</td>
</tr>
<tr>
<td>C+</td>
<td>77 – 79.99%</td>
</tr>
<tr>
<td>D</td>
<td>63 – 64.99%</td>
</tr>
<tr>
<td>D-</td>
<td>55 – 59.99%</td>
</tr>
<tr>
<td>D+</td>
<td>65 – 69.99%</td>
</tr>
<tr>
<td>E</td>
<td>0 – 54.99%</td>
</tr>
</tbody>
</table>

**Communication:**

- **Attend class:** Class attendance is a necessary component of this course. All quizzes and exams will be taken in class. Attending class does not count towards your grade, but attending class will directly help you with learning and therefore help your grade. You will greatly benefit from attending lectures or any part of the lecture.

- **Course Canvas Page:** Students are expected to log in and check Canvas every day for posted announcements and assignments. Students are also strongly advised to set up notifications for Canvas, so they do not miss any important notifications.

- **Read all Announcements on Canvas:** I will regularly post information, files, solutions, and announcements on Canvas (through “Files,” “Modules,” “Announcements”). You will be responsible for any information contained in these announcements as well as the information announced in class.
• I will always do my best to ensure the communication relevant to the course is clear and transparent. It is your responsibility to keep yourself updated by regularly checking: the announcements on Canvas, your Umail, the posts on the Discussions Board, and pay attention to the announcements given in class.

• **Umail:** It is your responsibility to regularly check your Umail. Your Umail is the only way for me to communicate privately with you. There will be occasions during the semester that we may need to reach out to you individually (e.g., regarding a grade or assignment), and it is in your best interest to respond promptly.

• Feel free to contact me by e-mail for questions at petkovic@math.utah.edu, and I will do my best to answer e-mails promptly. I would like to encourage you to use the **Discussion Board** instead for any questions about the logistics of the class, course material and assignments, and anything else your classmates may wonder as well. This way, the information is shared quickly with the entire class, and each of you can benefit from seeing other classmates’ questions.

• Use **Discussions** feature on Canvas, post questions/comments/suggestions for your classmates. You can find a study group this way, ask for help on certain questions/concepts, etc. Participate by answering other students’ questions.

**Resources to help you:**

• Contacting me by my e-mail, coming to office hours, or setting up an appointment is the first way to get help. I am happy to talk about individual problems, mathematical concepts or help you make a study/learning plan. Please seek help early in the term.

• **TUTORING HELP:** U of U Math Tutoring Center (drop-in online tutoring). The math center offers online tutoring. You can find more information here: [https://utah.instructure.com/courses/613503/](https://utah.instructure.com/courses/613503/)

• U of U Learning Center (formerly ASUU Tutoring; offers subsidized one-on-one tutoring) The Learning Center offers three free tutoring sessions per student per semester. Additional hours can be purchased after that. Scholarship assistance is also available. Here is a link to more information: [https://learningcenter.utah.edu/](https://learningcenter.utah.edu/)

**GENERAL HELP, IN PARTICULAR IN LIGHT OF COVID-19**

• Here is information from the University about logistics in light of COVID-19. There is also information about financial assistance, counseling, the food pantry, and much more. [https://coronavirus.utah.edu/#students](https://coronavirus.utah.edu/#students)

**MyLab HELP**

• Contact MyLab customer support (search the internet under “MyLab/Pearson customer support” for contact detail) if you have issues with the online platform. If MyLab/Pearson representatives are not able to assist, e-mail your instructor with a description of the problem and the case number.

**EQUIPMENT HELP**

• The UofU has a laptop and mobile hotspot loan program laptops, mobile hotspots mailed to current U students on a first-come, first-served basis. [https://lib.utah.edu/coronavirus/checkout-equipment.php](https://lib.utah.edu/coronavirus/checkout-equipment.php)

For technical assistance, review the Canvas Getting Started Guide for Students [https://community.canvaslms.com/docs/DOC-10701](https://community.canvaslms.com/docs/DOC-10701) and/or contact TLT, Knowledge Commons, etc.
THE LATE POLICY  You are expected to turn things in on time. Equipment failures will not be an acceptable excuse for late or absent assignments. Similarly, it is your responsibility to start assignments early enough, so that even if you are in traffic, your flight gets delayed, you are called into work, your run out of ink, you do work for another class, etc., you still have time to deal with the situation and then finish the assignment.

There may be situations that prevent you from turning in assignments on time. Hence, contacting me is CRUCIAL. I am usually willing to work something out.

Calculators: You will need a calculator for this course. A scientific calculator will be sufficient. You are not allowed to use your cell phone as a calculator.

UNIVERSITY OF UTAH POLICIES

DROP, WITHDRAWAL, and INCOMPLETE: The University of Utah drop and withdrawal dates:

- last day to add without a permission code  Friday, January 14th
- last day to add, drop (delete), or audit classes  Friday, January 21st
- last day to withdraw from classes  Friday, March 4th
- last day to reverse CR/NC option  Friday, April 22th

Holidays: There will be no class on

- Monday, January 17th  (Martin Luther King Jr Day Holiday)
- Monday, February 21st  (Presidents’ Day)
- March 6th - 13th  (Spring Break)
- April 27th  (Reading day)

Important Dates: All important dates can be seen at: https://registrar.utah.edu/academic-calendars/spring2021.php

INCOMPLETE (I grade): University policy allows assignment of a grade of incomplete (I) if 80% or more of the course work has been completed. I will consider assigning an “incomplete (I)” only under EXCEPTIONAL circumstances unrelated to academic performance, and only if a student is passing the course with a C or better when the “Incomplete” is requested.

CREDIT/NO CREDIT OPTION: This is the official University description of the credit/no credit option: “The credit/no credit (CR/NC) option allows a student to enroll in selected courses outside of his/her academic plan, without the pressure of competing for a letter grade. By electing CR/NC, students are expected to complete the same work as students enrolled for letter grades.”

Please keep the following in mind when making a decision:

- If you opt for CR/NC, your instructor still assigns you a course grade, but then the registrar switches it to be CR if the grade is a C- or higher and NC for grades that are a D+ or lower.
- If you are taking Math 1030 to meet the QA general education requirement, a grade of CR will fill the QA requirement, but a grade of NC will not. However, grades of D+/D/D- will fill the requirement. So, with this class, although a CR/NC grade may be better for the GPA, a student might prefer the D+/D/D- grade to fulfill the requirement.
• If you are taking Math 1030 to meet a major or minor requirement, then you should opt for a letter grade rather than credit/no credit (CR/NC).

• If you are taking Math 1030 as a prerequisite, it is easiest if you opt for a letter grade. You need a C or better to enroll in most subsequent courses. But if you choose to take Math 1030 CR/NC, when you want to enroll in the subsequent class, you will need to request a permission code. The permission code team will determine whether the underlying grade meets the requirements.

If you are uncertain about what choice to make, speak with an academic advisor to review your situation and discuss the options.

You can read about grading policies here: https://catalog.utah.edu/#/policy/B12v3LX0G?bc=true&bcCurrent=Grading%20Policies&bcGroup=Grade%20Information&bcItemType=policies

ACADEMIC MISCONDUCT Students are encouraged to review the Student Code for the University of Utah: https://regulations.utah.edu/academics/6-400.php

In order to ensure that the highest standards of academic conduct are promoted and supported at the University, students must adhere to generally accepted standards of academic honesty, including but not limited to refraining from cheating, plagiarizing, research misconduct, misrepresenting one’s work, or inappropriately collaborating. A student who engages in academic misconduct as defined in Part I.B. may be subject to academic sanctions including but not limited to a grade reduction, failing grade, probation, suspension or dismissal from the program or the University, or revocation of the student’s degree or certificate. Sanctions may also include community service, a written reprimand, and/or a written statement of misconduct that can be put into an appropriate record maintained for purposes of the profession or discipline for which the student is preparing.

Cheating and plagiarism are serious offenses and can result in getting a grade of ZERO on the assignment, failing a class, a note in your record, or being expelled. Please know that looking at someone else’s exam is cheating and will be dealt with seriously, as stated above. By accepting admission to the University, you have agreed to abide by the University rules provided to you in the student handbook.

Incidents of academic misconduct (e.g., cheating, plagiarizing, misrepresenting one’s work, and/or inappropriately collaborating on exams) will be subject to penalty per Section V of Policy 6-400, the Student Code. Incidents of academic dishonesty on homework assignments will result in a minimum penalty of a full letter-grade reduction and up to a failing grade (E) for the course. Incidents of academic dishonesty on exams will result in a minimum penalty of a failing grade (E) for the course, and the incident(s) will be referred to the dean of your major-department college for possible further sanction.

Additional Policies and Resources

The Americans with Disabilities Act: The University of Utah seeks to provide equal access to its programs, services, and activities for people with disabilities. If you need accommodations in the class, reasonable prior notice needs to be given to the Center for Disability and Access, 162 Olpin Union Building, 581-5020 (V/TDD). CDA will work with you and the instructor to make arrangements for accommodations. All information in this course can be made available in an alternative format with prior notification to the Center for Disability and Access.

Inclusivity Statement: It is my intent that students from all diverse backgrounds and perspectives be well served by this course, that students’ learning needs be addressed both in and out of class, and that the diversity that students bring to this class be viewed as a resource, strength, and benefit. It is my intent to present materials and activities that are respectful of diversity: age, color, disability, gender, gender identity, gender expression, national origin, political affiliation, race, religion, sexual orientation, and veteran status, and other unique identities. Your suggestions are encouraged and appreciated. Please let me know ways to improve the effectiveness of the course for you personally or for other students or student groups.
**Discrimination and Harassment:** If you or someone you know has been harassed or assaulted, you are encouraged to report it to the Title IX Coordinator in the Office of Equal Opportunity and Affirmative Action, 135 Park Building, 801-581-8365, or Office of the Dean of Students, 270 Union Building, 801-581-7066. To report to the police, contact the Department of Public Safety, 801-585-2677(COPS). Please see Student Bill of Rights, section E http://regulations.utah.edu/academics/6-400.php. I will listen and believe you if someone is threatening you.

**Safety Statement:** The University of Utah values the safety of all campus community members. To report suspicious activity or to request a courtesy escort, call campus police at 801-585-COPS (801-585-2677). You will receive important emergency alerts and safety messages regarding campus safety via text message. For more information regarding safety and to view available training resources, including helpful videos, visit safeu.utah.edu.

**Crisis Services Center:** This center offers services Mo-Fr 8 am 5 pm. If you would like to talk to one of the staff members, please call 801-581-6826 or walk into the Center at 426 Student Services Building (SSB). For more urgent situations and after hours, please go to the University Neuropsychiatric Institute (UNI), 501 Chipeta Way, or to the Emergency Department at the University Hospital.

**UNI Crisis Line:** 801-587-3000 offers crisis response 24/7, including crisis support over the phone, a mobile outreach option (MCOT) that will respond to persons in their home, and the Receiving Center where individuals from Salt Lake County can access a safe and supportive environment to help individuals work through their crisis situation. Individuals may spend up to 23 hours at the Receiving Center at no cost.

**Sexual Misconduct:** Title IX makes it clear that violence and harassment based on sex and gender (which includes sexual orientation and gender identity/expression) is a civil rights offense subject to the same kinds of accountability and the same kinds of support applied to offenses against other protected categories such as race, national origin, color, religion, age, status as a person with a disability, veteran’s status or genetic information. If you or someone you know has been harassed or assaulted on the basis of your sex, including sexual orientation or gender identity/expression, you are encouraged to report it to the Title IX Coordinator in the Office of Equal Opportunity and Affirmative Action, 135 Park Building, 801-581-8365, or the Office of the Dean of Students, 270 Union Building, 801-581-7066. For support and confidential consultation, contact the Center for Student Wellness, 426 SSB, 801-581-7776. To report to the police, contact the Department of Public Safety, 801-585-2677(COPS).

**Student Names and Personal Pronouns statement:** Class rosters are provided to the instructor with the student’s legal name as well as “Preferred first name” (if previously entered by you in the Student Profile section of your CIS account). While CIS refers to this as merely a preference, I will honor you by referring to you with the name and pronoun that feels best for you in class, on papers, exams, group projects, etc. Please advise me of any name or pronoun changes (and update CIS), so I can help create a learning environment in which you, your name, and your pronoun will be respected. If you need assistance getting your preferred name on your UID card, please visit the LGBT Resource Center Room 409 in the Olpin Union Building or e-mail bpeacock@sa.utah.edu to schedule a time to drop by. The LGBT Resource Center hours are M-F 8 am-5 pm, and 8 am-6 pm on Tuesdays.

**English Language Learners:** If you are an English language learner, please be aware of several resources on campus that will support you with your language and writing development. These resources include the Writing Center (http://writingcenter.utah.edu/); the Writing Program (http://writing-program.utah.edu/); the English Language Institute (http://continue.utah.edu/eli/). Please let me know if there is any additional support you would like to discuss for this class.

**Undocumented Student Support:** Immigration is a complex phenomenon with broad impact those who are directly affected by it, as well as those who are indirectly affected by their relationships with family members, friends, and loved ones. If your immigration status presents obstacles to engaging in specific activities or fulfilling specific course criteria, confidential arrangements may be requested from the Dream Center. Arrangements with the Dream Center will not jeopardize your student status, your financial aid, or
any other part of your residence. The Dream Center offers a wide range of resources to support undocumented students (with and without DACA) as well as students from mixed-status families. To learn more, please contact the Dream Center at 801.213.3697 or visit dream.utah.edu.

Veterans Center: If you are a student veteran, the U of Utah has a Veterans Support Center located in Room 161 in the Olpin Union Building. Hours: M-F 8-5 pm. Please visit their website for more information about what support they offer, a list of ongoing events, and links to outside resources: http://veteranscenter.utah.edu/. Please also let me know if you need any additional support in this class for any reason.

Wellness Statement: Personal concerns such as stress, anxiety, relationship difficulties, depression, cross-cultural differences, etc., can interfere with a student’s ability to succeed and thrive at the University of Utah. For helpful resources, contact the Center for Student Wellness at [www.wellness.utah.edu](http://www.wellness.utah.edu) or 801-581-7776.

Student Success Advocates: The mission of Student Success Advocates is to support students in making the most of their University of Utah experience (ssa.utah.edu). They can assist with mentoring, resources, etc. Any student who faces challenges securing their food or housing and believes this may affect their performance in the course is urged to contact a Student Success Advocate for support (https://asuu.utah.edu/displaced-students).

University Counseling Center: The University Counseling Center (UCC) provides developmental, preventive, and therapeutic services and programs that promote the intellectual, emotional, cultural, and social development of University of Utah students. They advocate a philosophy of acceptance, compassion, and support for those they serve, as well as for each other. They aspire to respect cultural, individual, and role differences as they continually work toward creating a safe and affirming climate for individuals of all ages, cultures, ethnicities, genders, gender identities, languages, mental and physical abilities, national origins, races, religions, sexual orientations, sizes, and socioeconomic statuses.

Office of the Dean of Students: The Office of the Dean of Students is dedicated to being a resource to students through support, advocacy, involvement, and accountability. It serves as a support for students facing challenges to their success as students and assists with the interpretation of University policy and regulations. Please consider reaching out to the Office of Dean of Students for any questions, issues, and concerns. 200 South Central Campus Dr., Suite 270. Monday-Friday 8 am-5 pm.

Disclaimer: Syllabus subject to change: This syllabus is meant to serve as an outline and guide for our course. Please note that I may modify it with reasonable notice to you. I may also modify the Course Schedule to accommodate the needs of our class. Any changes will be announced in class and posted on Canvas.
