GEOG 5190/6190
GIS & Public Health

This course helps you understand how GIS and spatial methods could be utilized to analyze the complex interactions among society, environment, and population health. It will use real-world applications such as environmental exposure and mobile health to highlight principles, methods, and techniques of Health Geography.

 Semester: Fall 2016
 Time: Tuesday/Thursday
       12:30pm-1:40pm
 Location: BLDG 72 115

Instructor: Neng Wan
Assistant Professor
Department of Geography
University of Utah
