Cartography is the art and science of making maps. This course is a foundation for advanced geographic courses such as GIS and remote sensing. We will consider cartography principles in light of new technological advances that govern modern cartography. In lecture we will discuss the concepts to consider in creating a “good” map and you will learn to apply them in the lab sessions.

• Study of Mapmaking

Semester: Fall 2016
Time: Tuesday & Thursday
9:10am-10:30am
Location: SW 137

Instructor: Neng Wan
Assistant Professor
Department of Geography
University of Utah
