Class Hours: TTh 12:25–1:45 PM, BU C 211

Office Hours: 12:00–2:00 PM Fridays, or by appointment.

Text: Complex Variables and Applications, by Brown and Churchill, 9th edition. My plan is to cover the first six chapters; time permitting, I will cover a few topics from Chapters 7 and 8.

Prerequisites: A grade of C or better in MATH 2250 or (MATH 2270 and MATH 2280).

Homework: Homework will be assigned periodically but will not be graded. However, doing these problems is essential to gaining an understanding of the material, and some time will be spent in class going over them.

Quiz: Each Thursday there will be a quiz on the material covered up to that point. The problems will be similar to the text or examples that we have done in class; or the assigned suggested homework problems. **No make-up quizzes will be given**, but the lowest two quiz grades will be dropped at the end of the semester. The quizzes account for 25% of the overall grade.

Exams: There will be three midterm exams each counting for 25% of the grade. Given the nature of the material, all exams are cumulative. No calculators, phones, or notes are allowed during the exams. Here is a tentative schedule:

- 28 September 1st midterm
- 9 November 2nd midterm
- 5 December 3rd midterm

The dates may be changed, but I will give you reasonable notice.

Grading Policy: Your grade will be based on performance on the exams (75%) and on the quizzes (25%).

ADA Statement: The University of Utah seeks to provide equal access to its programs, services and activities for people with disabilities. If you will need accommodations in the class, reasonable prior notice needs to be given to the Center for Disability Services, 162 Olpin Union Building, 581-5020 (V/TDD). CDS will work with you and the instructor to make arrangements for accommodations. All information in this course can be made available in alternative format with prior notification to the Center for Disability Services.

Tutoring: The Rushing Math Center offers free drop-in tutoring, a computer lab, and study 2 areas for undergraduates. The Rushing Student Center is adjacent to the LCB and JWB. The hours for the Fall semester are: 8 am–8 pm Monday to Thursday and 8 am–4 pm on Friday. The tutoring center will open the second week of classes.

Classroom Etiquette: Please turn off your cells phones while you are in class.
