Ofc. Hours: By appointment

Course Description:

This course is an introduction to four sub-disciplines in Anthropology, which is **the study of similarities and differences in human behavior over time and space**. These sub-disciplines are **biological and cultural anthropology, paleoanthropology and archaeology**.

Learning Outcomes:

- **Describe** variation among humans and their closest relatives across the world and through time.
- **Specify** each of the major sub-fields in anthropology and **contrast** each of their approaches to studying and measuring variation.
- **Apply** anthropological research methods to answer a question or solve a problem.

No textbook is required. We will use three approaches to examine variation in human behavior. The material presented in **PowerPoint lectures** and the films shown in class will be our text and the most important source of information on the topics we study. Our second approach to these topics is presented in weekly **Supplemental Readings** uploaded to the class website discussed below. These are short articles condensed from longer treatments of topics in Anthropology. These articles are written by academic professionals and will allow you to access the professional literature of Anthropology without extensive background. They summarize original research and recent finds, augmenting and enriching topics covered in Lecture.

Our third approach to the discipline of Anthropology is provided by the **news media**. Each week that you have a Bulletin Board Assignment you will choose **one** article from either the “The Guardian, Anthropology” or “Science Daily, Anthropology” websites, which are linked to our class website on the Syllabus or through the **Pages** link on the left sidebar. You will write a brief report, at least a paragraph in length, and post it to the class website using the **Assignments** link. This exercise will impact you with the immediacy and diversity of current anthropological research, the power of cultural norms to shape behavior and the richness of cultural diversity. Subject matter will assist in your understanding of cultural diversity and prompt you to explore the profound influence your own culture has had on your life experience.

Canvas Site: This course has a Canvas website. A copy of the Syllabus can be accessed at the **Syllabus** link on the left hand side of our home page. The **Modules** link will take you to a webpage where you can download Study Guides and Supplemental Readings. PowerPoint

lectures will also be available at this link after they are given in class. Open the **Assignments** link to post your Bulletin Board reports.

Coursework: The course is divided into four sections shown on the Class Schedule attached to the Syllabus. The first section focuses on evolutionary theory, primate taxonomy and hunter-gatherer ecology. The second section deals with human evolutionary history and its powerful influence on human behavior. The third section addresses the origins of agriculture and the appearance of complex societies. The fourth section focuses on traditional cultural anthropology topics such as gender, kinship and religion.

Weekly Supplemental Readings are assigned by number on the Class Schedule, listed by name on the fifth page of the Syllabus and uploaded to the class website. Find them in the **Modules** link.

Coursework also includes several films shown in class with discussions that follow. These films are an integral part of the course. If you miss a film that is in the Marriott Library collection, it can be borrowed from the Marriott Multi-media Center. Some films are also available online through YouTube or Netflix. Films from the Anthropology Department collection are not available for re-viewing and may not be available in the library or online.

Bulletin Board Homework:

Most weekly assignments will include a Bulletin Board report from “The Guardian, Anthropology” or “Science Daily, Anthropology.” You will post this report to the class website by Monday evening at 11:59 PM, **of the following week unless Monday is a holiday**. If Monday is a holiday, the BB report is due on Tuesday. **Report due dates are listed on the class schedule. Late responses are not accepted.** The “The Guardian, Anthropology” website is linked to our class website site under “Web Links” in Pages and can also be found at the URL <https://www.theguardian.com/science/anthropology>. “Science Daily, Anthropology” can be found at https://www.sciencedaily.com/news/fossils_ruins/anthropology/ and is linked to our website in the same location.

Please choose any **anthropological** topic from either of these websites and write a brief report. **(Dinosaur discoveries are not anthropological.)** The report should be at least one paragraph in length, spell-checked and include the following: 1) the URL for the article you have chosen. 2) What’s the question or topic of the article? 3) What are the significant findings? 4) What were your impressions of the article? Post your report to the correct week’s Bulletin Board (in Assignments) no later than Monday evening 11:59 PM, **of the following week. Report due dates are listed on the class schedule. Late responses are not accepted.**

Bulletin Board Homework requires you to choose a topic of interest, report on what you have learned and discuss your impressions of the news article. **Each Bulletin Board exercise is worth 20 points and a total of 240 Bulletin Board Points are available this semester. This is approximately 25% of your grade.** To receive credit for your response, it must be clear that you have read and thought about a current article and posted your response on time.

Attendance Points:

Five times at random during the semester a role will be passed around the classroom. Students, who are present, sign the role and stay for the entire class period will receive 10 attendance points. A total of 50 attendance points are offered and are not considered extra credit but are included in total points possible for the semester.

Testing and Grading:

Testing is in the form of weekly, multiple-choice, open book quizzes taken on our Canvas website. Find them under the Quizzes link on the left hand side bar of our Canvas home page. These quizzes consist of 25 multiple-choice questions, each worth 2 points apiece. Each week's Quiz is available between 12:00 AM Monday morning and 11:59 PM Tuesday evening of the following week and covers material presented in the lecture, films and readings for the preceding week. There is one exception to this pattern. 1) The Week 2 Quiz covers both Weeks 1 and 2 and since Sep 4th is the Labor Day holiday, the Week 2 Quiz will be open an extra day, from Sep 4-6.

You will receive a weekly Study Guide from which multiple-choice questions are taken. These Study Guides will include questions from the Films and Supplemental Readings. Each quiz covers only the material presented the preceding week with the one exception listed above. **The weekly Study Guides are your most important preparation for quizzes.**

Your class grade is based on attendance points, participation in Bulletin Board Homework assignments, and quiz scores. Your class grade is calculated based on the percentage of points you earn relative to a high score in the class. Typically 40% students taking this course earn grades in the A or B range. An extra credit assignment is discussed below.

Extra Credit Assignments:

You can earn 20 Extra Credit points by giving a **10-minute** PowerPoint presentation in class. The topic of this presentation can be either one that has been discussed in class or a topic from other news sources. You can also team up with **two** other members of the class. Anyone participating in the report will earn 20 Extra Credit points.

At the end of the semester, Extra Credit points will **not** be used to determine a grade scale but will be added to your final score after the grade scale is determined. Consequently, students who do not give a report are not penalized. However, 20 Extra Credit points usually moves a final grade up one step, from a B to B+ for example, and reports are always interesting both for students and the instructor. **Please clear a report topic with me before proceeding.** When you are ready, I will schedule your report on a specific day of class at the beginning of the class period. This is an assignment that allows you to be creative, express your views and introduce new topics, so give it a try!

Summary:

The most important learning experience you will have as you study Anthropology is a deepened understanding of human behavior, yours and that of others. Hopefully, cultural differences will become more understandable and our tolerance of others, both those within our own families and those outside our cultural experience, will increase as a consequence.

Department and University Policies

ADA Statement: The Americans with Disabilities Act. The University of Utah seeks to provide equal access to its programs, services, and activities for people with disabilities. If you will need accommodations in this class, reasonable prior notice needs to be given to the Center for Disability Services, 162 Olpin Union Building, (801) 581-5020. CDS will work with you and the instructor to make arrangements for accommodations. All written information in this course can be made available in an alternative format with prior notification to the Center for Disability Services.

Addressing Sexual Misconduct: Title IX makes it clear that violence and harassment based on sex and gender (which includes sexual orientation and gender identity/expression) is a Civil Rights offense subject to the same kinds of accountability and the same kinds of support applied to offenses against other protected categories such as race, national origin, color, religion, age, status as a person with a disability, veteran's status or genetic information. If you or someone you know has been harassed or assaulted, you are encouraged to report it to the Title IX Coordinator in the Office of Equal Opportunity and Affirmative Action, 135 Park Building, 801-581-8365, or the Office of the Dean of Students, 270 Union Building, 801-581-7066. For support and confidential consultation, contact the Center for Student Wellness, 426 SSB, 801-581-7776. To report to the police, contact the Department of Public Safety, 801-585-2677(COPS).

Wellness Statement: Personal concerns such as stress, anxiety, relationship difficulties, depression, cross-cultural differences, etc., can interfere with a student's ability to succeed and thrive at the University of Utah. For helpful resources contact the Center for Student Wellness (www.wellness.utah.edu; 801-581-7776).

Student Code: (Policy 6-400) All students are expected to maintain professional behavior in the classroom setting, according to the Student Code (regulations.utah.edu/academics/6-400.php). Students have specific rights in the classroom as detailed in S. II of the Code. The Code also specifies standards of behavior (S. III) and academic conduct (S. V). "Students must adhere to generally accepted standards of academic honesty, including but not limited to refraining from cheating, plagiarizing, research misconduct, misrepresenting one's work, and/or inappropriately collaborating" (S. VB). According to Faculty Rules and Regulations, it is the faculty responsibility to enforce responsible classroom behaviors. Students have the right to appeal such action to the Student Behavior Committee.

Incomplete Policy: An "I" will only be given for work not completed because of circumstances beyond the student's control, providing the student is passing the course and needs to complete 20% or less of the work. Valid reasons for an "I" grade include: (a) An illness (documented by a medical statement) that precludes the ability of the student to perform; (b) an accident or situation that prevents the student from physically being present (documentation may be required); (c) Extreme emotional or other mental circumstances that are severe enough to interfere with a student's normal academic performance. If you do receive an "I", do not register for the course again. You must complete the required work in the time agreed by you and the instructor. If the work is not completed within one year, the grade will change to an "E". Faculty will not accept additional work to change the grade after that one-year period. If a student has a problem with the course, please deal with it immediately. It is the student's responsibility to contact instructors and submit necessary forms.

Note: The syllabus is not a binding legal contract. It may be modified by the instructor when the student is given reasonable notice of the modification.

CSBS EMERGENCY ACTION PLAN

BUILDING EVACUATION

EAP (Emergency Assembly Point) – When you receive a notification to evacuate the building either by campus text alert system or by building fire alarm, please follow your instructor in an orderly fashion to the EAP marked on the map below. Once everyone is at the EAP, you will receive further instructions from Emergency Management personnel. You can also look up the EAP for any building you may be in on campus at <http://emergencymanagement.utah.edu/eap>.

CAMPUS RESOURCES

U Heads Up App: There's an app for that. Download the app on your smartphone at alert.utah.edu/headsup to access the following resources:

- **Emergency Response Guide:** Provides instructions on how to handle any type of emergency, such as earthquake, utility failure, fire, active shooter, etc. Flip charts with this information are also available around campus.
- **See Something, Say Something:** Report unsafe or hazardous conditions on campus. If you see a life threatening or emergency situation, please call 911!

Safety Escorts: For students who are on campus at night or past business hours and would like an escort to your car, please call **801-585-2677**. You can call 24/7 and a security officer will be sent to walk with you or give you a ride to your desired on-campus location.
