TOTAL POINTS 650 POINTS

Description of Assignments:

1. Syllabus Quiz: After reviewing the syllabus, you will complete a short quiz to check for comprehension to ensure that you understand what is expected of you, course policies, and what you can expect from the course.

2. Goals & Objectives: You will prepare a minimum of two goals and two objectives for each goal. Objectives must be specific, observable, measurable, and time-bound. You will be expected to revise and resubmit poorly written goals and objectives within one week before this assignment can receive a grade.

3. Discussions & Presentations: Over the course of the semester, you will complete three discussion assignments: 1) a class introduction, 2) a mid-semester update, and 3) a final presentation. These discussion assignments will give the class the opportunity to learn about each other and their internships, and to see the challenges and successes that everyone is experiencing.

4. Hours Log: You are required to submit an hours log documenting a minimum of 480 hours over the course of 12-14 weeks. A spreadsheet should be developed using Microsoft Excel. By submitting this hour log, you certify that you have worked the hours indicated. This document should also have a signature line for your supervisor to sign. This assignment must be typed and signed by your agency supervisor.
5. **Site Visit**: You must schedule a time to meet, at your internship site, with the academic supervisor and your agency internship supervisor. If your internship is out of town, a conference call or Skype will suffice. When scheduling the visit, select several possible times that you and your supervisor can meet before requesting a meeting with your academic supervisor. Site visits will consist of you, your agency supervisor, and the academic supervisor meeting for approximately 30-45 minutes to review your experience.

6. **Student and Supervisor Evaluations**: You are responsible for ensuring that your supervisor submits a mid-semester evaluation and final performance assessment by the due date. You are responsible for getting the forms to the supervisor well in advance of the due date and verifying that your supervisor submits the evaluations on time. Additionally, you will complete and submit your own mid-semester and final evaluations too.

7. **Reflective Journal Reports**: Throughout the course of the semester, you will write a minimum of six (6) bi-weekly (one every two weeks) reflective journal reports. These will require you to reflect on what you have learned during your internship experience. This is not a description of your work, but a thorough examination of events, tasks, interactions, communications, and incidents. A high standard of writing is expected at all times.

8. **Professional Portfolio**: This assignment may build on an electronic portfolio you started in PRT 3101, and for some, PRT 5460. The portfolio should demonstrate learning, integration of PRT concepts, and transition from student to professional. Projects and reflections that contain evidence of the following would be appropriate additions to your portfolio: a) detailed planning; b) analytical processing; c) problem solving; d) computational analysis; e) documentation using literature or other data to substantiate assertions; and f) original or creative products. An ideal internship placement is one in which the agency values your contributions, allows you to take on larger job responsibilities, and provides mentorship along the way. Students in these situations are generally in an excellent position to take ownership of special projects and see them through to completion. In this case, one or two large projects will make excellent additions to your portfolio. **For this assignment you will submit a website URL.**

**Late Policy:**
Late assignments will be penalized 10% per day, up to a maximum of 30%. Assignments will not be accepted more than three days after the due date. For example, if an assignment is due on Thursday at 11:59pm, then anything turned in on Friday starting at midnight will be deducted 10%; 20% if turned in on Saturday, and 30% if turned in on Sunday. The assignment would not be accepted after 11:59pm on Sunday, and the student would receive a zero on that assignment. In extreme and rare circumstances, assignments may be accepted late (e.g., emergencies). If possible, contact your University supervisor (or the instructor) prior to the deadline explaining the issue. Your University of Utah supervisor will evaluate the situation, and if permitted, will work with you to set a new deadline for the assignment. **Technological difficulties and general time management difficulties due to busy schedules are not reasonable excuses for deadline**
extensions or adjustments. Please allow buffer time; do not wait until the last minute to submit an assignment.

According to Faculty Rules and Regulations, it is the faculty responsibility to enforce responsible classroom behaviors, and I will do so, beginning with verbal warnings and progressing to dismissal from class and a failing grade.
