FINANCIAL SKILLS FOR LIFE
Fall 2018: Fully Online Version
This class fulfills the QI requirement.

Instructor: Dr. Jennifer Lehman
237 Alfred Emery Building / 801-585-3060 / Jennifer.lehman@fcs.utah.edu
Office Hours: MW 9:30-11:00am

Course Description:
This course is a survey of major topics in the field of personal financial planning. The course is appropriate for students interested in applying the concepts and tools of financial planning to their own life as well as those who wish to work with other people as a financial planning volunteer or professional. (Indeed, this course is the foundation for a six-course sequence in financial planning offered through the Department of Family and Consumer Studies.) Topics covered in this course include:

- The financial planning process
- Household decision making
- Cash management, debt management, & saving
- Insurance & risk management
- Investment alternatives
- Retirement planning
- Estate planning

Course Objectives:
The class aims to enhance a student’s ability to:

- Specify financial goals and values
- Construct personal financial statements and use ratios and other techniques to analyze these statements.
- Identify strengths and weaknesses in a household’s initial situation and determine opportunities for achieving financial goals.
- Understand major developments in the economic, social, political, and technological environment and be able to determine how financial plans should accommodate those developments.
- Apply time value of money thinking and computation in financial planning.
- Quantitatively evaluate the use of credit and planned borrowing to meet household consumption, asset acquisition and other financing needs.
- Identify basic insurance terminology and coverage options, and prioritize options based on need.
- Distinguish the most common banking and investment products; assess the relationships among liquidity, risk and return; and perform quantitative calculations to understand yield and return on investment
- Understand the importance of retirement and estate planning, distinguish among the major vehicles for retirement savings and spending, quantitatively assess various income withdrawal strategies, and identify alternative mechanisms of estate planning.
Course Prerequisites and Requirements:
The course does not have any pre- or co-requisites, but previous classes in economics, accounting, and statistics may make this class more rewarding.

The required textbook is: *Personal Finance: 13th Edition (via Mindtap for online access to quizzes and assignments)*, by Garman and Forgue. The book’s publisher is Cengage Learning. You will be purchasing an electronic version of this book, which is part of MINDTAP. Mindtap includes the book and numerous graded and ungraded features of this class. **There is no way to pass this course without the electronic textbook and associated features!** You are welcome to buy a hardcopy version of the book, but this is not required. The cost of Mindtap is about $140.

You will be required to perform some basic financial calculations in this course. Accordingly, a financial calculator is helpful, but one is not required. Quiz questions, exam questions, and written assignments will be constructed so that correct answers can be obtained by using the tables in Appendix A of the textbook. (Quizzes and tests are open-book and may refer to these tables.)

The course is divided into 13 weekly units (“learning modules”), each of which culminates in a wrap-up quiz, usually due by Sunday midnight. There are multiple assignments each week, so it is very important that you not wait until the last minute. There will also be a midterm examination and a semi-cumulative final exam. (“Semi-cumulative” means that there are concepts and skills from the midterm that will remain relevant during the second half of the class, but you will not need to re-study the chapters or additional readings covered in the midterm.) You will have a multi-day period in which to take the midterm and final exams. If a campus or community event of exceptional relevance to this course presents itself, extra credit assignments may be offered, but do not count on them to earn a good grade. The best way to achieve that goal is to do well on the quizzes, assignments, and exams.

The point value of each requirement is as follows:

- 13 chapter initial quizzes: **best eleven scores** (@ 10 points each) = Up to 110 points
- 13 chapter assignments: **best eleven scores** (@ 30 points each) = Up to 330 points
- 13 written applications: **best eleven scores** (@ 15 points each) = Up to 165 points
- 13 written wrap-up quizzes: **best eleven scores** (@ 15 points each) = Up to 165 points
- Midterm exam (October 4-6) = Up to 100 points
- Final exam (Dec. 10-12) = Up to 100 points
- Other Small-Group Assignments = Up to 30 points
- TOTAL = Up to 100 points

IMPORTANT: You should access each week’s reading, quiz, assignment, and wrap-up quiz by going to the **MODULES**. You will be taken directly into Mindtap.

A missed deadline for a written assignment, quiz, or test means NO CREDIT, so please make sure you understand the deadlines.
**Course Schedule:**

**Fully online courses require students to be diligent.** This requires multiple tasks each week, so staying on top of them is crucial for success. You have some leeway inasmuch as you can drop your lowest two assignment scores and lowest two quiz scores, but it is best to think of this feature as a lifeline you don’t want to use unless an emergency arises. The anticipated timetable for the course is as follows. If small adjustments become necessary due to unforeseen circumstances, students will be notified via the course website and given a reasonable amount of time to make any adjustments.

* The assignments and quizzes for the first two units are due at the end of the second week of the course. This is for the benefit of students who add the class late or have a busy first week of the semester.

**Grading Scale:**

University instructors are strongly encouraged to provide exact grading scales at the beginning of the semester. Personally, I like a more flexible approach, but for the sake of clarity, you can count on me using a scale that is no more strict than the following. That is, I may choose to use a slightly more generous grading system if I believe it is warranted.

<table>
<thead>
<tr>
<th>Grade</th>
<th>87-89.9</th>
<th>77-79.9</th>
<th>67-69.9</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>

</tr>
<tr>
<td>90-93.9</td>
<td>80-83.9</td>
<td>70-73.9</td>
<td>Below 64</td>
</tr>
</tbody>
</table>

You will receive detailed feedback on your assignments and have access to the correct answers for most quizzes and assignments. If you would like additional feedback, you are encouraged to make an appointment to go over course assignments.
Other Important Information:

1. An instructor has responsibilities to his or her students. These include: treating students with respect, replying to email promptly, providing feedback on assignments, returning tests in a timely manner, cancelling classes only under exceptional circumstances and with as much prior notification as possible, and complying with the University’s final exam schedule. For a complete list of faculty rights and responsibilities, see: http://www.regulations.utah.edu/academics/6-316.html

2. A student has responsibilities to herself/himself, fellow students, and course instructors. These include:
   a. Reading the syllabus carefully and completely
   b. Allocating sufficient time to meet all course requirements
   c. Meeting all course deadlines
   d. Familiarizing oneself with various University and Department policies (see below)
   e. Contributing to a respectful, intellectually-rigorous, and intellectually-open class environment

3. Please consult the University’s Academic Calendar to determine the deadlines for dropping or withdrawing from the class.

4. A missed quiz or exam means no credit. Given the multi-day window during which you can take each of the exams, I will not, generally, make alternative arrangements for students who did not take a quiz or exam on time. Moreover, you have the automatic privilege of dropping your two lowest quiz scores. With respect to the midterm and final exams, I will consider providing an alternative test time only if extraordinary and uncontrollable circumstances arise and if you notify me at the earliest possible time, preferably well in advance of the test date. The surest way to reach me is to call my office phone (801-585-3060).

5. Late assignments will not be accepted. Again, you can count a late assignment as one of the two assignments and quizzes you are allowed to drop. As with exams, the only exceptions will require extraordinary circumstances and prompt notification of the instructor.

6. The prospect of a poor course grade does not justify a request to receive an "incomplete." An incomplete is reserved for extraordinary circumstances and only when a student has no more than an exam or a paper to complete in a course. The rule of thumb is that a student must have already completed 80% of all course work and be in good standing (i.e., have at least a C average for all completed work) to be considered for an incomplete. University policy gives students one year to complete the remaining work, after which the grade will automatically become an “E.”

7. The University of Utah has several policies to meet the special needs of students. These policies involve students taking the initiative in contacting their professors.

   a. The University of Utah seeks to provide equal access to its programs, services and activities for people with disabilities. If you will need accommodations in this class, reasonable prior notice needs to be given to the Center for Disability Services, 162 Olpin Union Building, 581-5020 (V/TDD). CDS will work with you and the instructor to make arrangements for accommodations. All written information in this course can be made available in alternative format with prior notification of the Center for Disability Services.
b. The University of Utah has policies to accommodate students who must miss class for religious reasons and/or are concerned that some course material will conflict with their most deeply held personal beliefs. If you anticipate needing either type of accommodation, you should notify the instructor during first two weeks of the class. You can learn more about this policy at: https://academic-affairs.utah.edu/wp-content/uploads/sites/3/2015/03/accommodations-policy-background.pdf

8. Any student who has difficulty getting enough to eat every day, lacks a safe place to live, or faces unjust deportation is living with hardship that may make it difficult to excel in this course. If any of this is the case, you are urged to contact the Dean of Students for support. Furthermore, please notify your instructor if you are comfortable in doing so, and I’ll help however I can. For information about public resources in the Salt Lake area visit http://211utah.org.

9. The University of Utah has a code of student conduct. Academic misconduct includes, but is not limited to, representing another’s work as your own (“plagiarism”), submitting the same work for more than one course without the permission of both instructors, and cheating on exams. These forms of academic misconduct are abhorrent to me, undermining of your character, and unfair to your fellow students. Of course, cheating is tempting, and it can be difficult to detect, especially in a fully-online course such as this one. Nevertheless, I expect that all students will conduct themselves with total honesty and integrity. Department and University policy state that the penalty for academic misconduct is failing a course and a notification of the appropriate dean and the Vice President for Academic Affairs, who will keep the student’s name on record. Students with multiple reports may face expulsion from the University.

For further information about the University of Utah’s policies regarding student rights and responsibilities, see: http://www.regulations.utah.edu/academics/6-400.html Section V addresses academic misconduct specifically.

10. The lectures, tests, and other course materials developed by the instructor are copyrighted and may not be shared with others without the instructor’s express permission.

NOTE: This syllabus is not a binding legal contract. It may be modified by the instructor as long as students are given reasonable notice of any changes.
CSBS EMERGENCY ACTION PLAN

BUILDING EVACUATION
EAP (Emergency Assembly Point) – When you receive a notification to evacuate a building either by campus text alert system or by building fire alarm, please proceed in an orderly fashion to the EAP designated for that building. Once everyone is at the EAP, you will receive further instructions from Emergency Management personnel. You can look up the EAP for any building you may be in on campus at [http://emergencymanagement.utah.edu/eap](http://emergencymanagement.utah.edu/eap).

CAMPUS RESOURCES
U Heads Up App: There’s an app for that. Download the app on your smartphone at [alert.utah.edu/headsup](http://alert.utah.edu/headsup) to access the following resources:

- **Emergency Response Guide**: Provides instructions on how to handle any type of emergency, such as earthquake, utility failure, fire, active shooter, etc. Flip charts with this information are also available around campus.

- **See Something, Say Something**: Report unsafe or hazardous conditions on campus. If you see a life threatening or emergency situation, please call 911!

Safety Escorts: For students who are on campus at night or past business hours and would like an escort to your car, please call 801-585-2677. You can call 24/7 and a security officer will be sent to walk with you or give you a ride to your desired on-campus location.
