1. Objectives: This course meets the Social and Behavioral Sciences Intellectual Explorations (BF) requirement.

The primary goal of this course is to familiarize students with the sociological perspective. This will include an introduction to the basic nature of society and the relationship between society and the individual. Basic sociological ideas regarding social relations, social integration, social interaction, social structure, and social change are examined. The student will be introduced to several key sociological theories, and learn to apply them to a wide range of specific sociological topics including class, race, gender, sexuality, religion, globalization, education, healthcare, crime, the media, and the environment. Research methodology will also be discussed to familiarize the student with many of the methods used, as well as ethical issues in social science research.
Through a number of in-class and out-of-class brief assignments the student will be asked to become familiar with sociological issues, and how they appear in nearly every aspect of daily life. The assignments will focus on, and assess, the students understanding of the following specific topics.

- Basic social theories
- Research methodology and design
- The economy and globalization
- Technologies and social change
- Crime and punishment
- Environmental issues
- The influence of the media
- The individual and their relationship to the larger society

2. Grading Procedures
   The final course grade will be determined by your performance on 3 equally weighted objective type exams, 3 electronic discussion boards, and 2 brief outside class assignments. There is no comprehensive final exam in this course. The exams will consist of 50 multiple-choice questions.
   Each exam is worth 100 points. The 3 discussions are worth 10 points each and the 2 assignments are worth 10 points each for a total of 350 points.

Course Assignments for Sociology 1010-090

The following out of class assignments require the student to define/utilize/and apply many relevant sociological concepts presented in the class. These activities are intended to be interesting, fun, and enlightening.

Your written assignment should be 3 - 4 pages in length. Assignments are due on the dates indicated below. Late assignments will NOT be graded. Each assignment is worth 10 points towards your course grade. Assignments should be submitted electronically in Canvas. NO late assignments are accepted for any reason. These assignments are available to students for 5+ weeks. I strongly recommend you complete and submit the assignments early to avoid any unnecessary “last minute” problems.

Assignment #1 Due June 14th: For this assignment I would ask each student to pick any social issue that interests them and apply one of our 3 major theories (Functional, Conflict, Symbolic Interaction) to explain the issue/event. I’m not expecting a comprehensive explanation of any given social issue, but rather that each student attempt to apply a given theory to some social issue. There is no right or wrong application of theory in evaluating your submissions, but you will be graded on how well you understand and attempt to use a specific theoretical perspective. Some social issues you may chose could be: The recent economic problems and bailouts, Climate change and the various political perspectives, Gender inequality in (fill in issue), Gay marriage, Moving the Utah State Prison, Political Gridlock, The recent police shootings and protests, Oil exploration and the environment, or any other issue you find interesting. Your submission should be 3-4 pages in length.
Assignment #2 Due July 26th: Write a short (3 - 4 pages) biography wherein you highlight the sociological factors that have influenced your life. Those could include social class, religion, race/ethnicity, sexual orientation, or any other topics from this course.

***THIS IS A PRELIMINARY SYLLABUS, SOME MINOR CHANGES MAY BE MADE PRIOR TO THE BEGINNING OF CLASSES ON May 13, 2019***
